ES EXECUTIVE SUMMARY

Northgate Gonzalez Real Estate, LLC (NGRE) retained EEC Environmental (EEC) to conduct a Phase I Environmental Site Assessment (ESA) at the Citizens Business Bank property located at 225 W. 6th Street in Corona, Riverside County, California (subject property). The objective of the Phase I ESA is to assess the environmental condition of the subject property and identify *recognized environmental conditions* (RECs), as defined by the American Society for Testing and Materials (ASTM), in connection with the subject property. This Phase I ESA in being conducted in association with a real estate transaction.

The assessment was conducted in accordance with the U.S. Environmental Protection Agency (USEPA) Standards and Practices for All Appropriate Inquiries (40 CFR 312); ASTM Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation E1527-13); and EEC's Standard Limitations. In addition, the Phase I ESA includes all the appropriate inquiries to support the innocent landowner defense pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

The subject property is located northeast of the intersection of S. Belle Avenue and W. 6th Street in a commercial and residential land use setting in Corona, California (Figure 1, *Site Location Map*; Figure 2, *Site Vicinity Map*). The approximately 1.11-acre subject property consists of one parcel identified as Assessor's Parcel Number (APN) 117-144-017. The subject property is developed with a Citizens Bank Building on the southwest corner of the parcel. The remainder of the parcel is developed with an associated drive-up ATM structure, asphalt-paved parking lot, and landscaped areas. The subject property building was constructed in 1981.

The subject property was developed with a single-family residence in 1895. In 1911, a large, multi-building lumber and mill company was developed on the subject property, in addition to the residence. In the 1920s, the lumber and mill operations ceased, with the exception of a planing mill, and the remaining buildings were occupied by various businesses, including an auto repair garage, machine shop, athletic club, and office. Additionally, a church occupied the residence in the 1920s. In the 1930s and 1940s, additional retail use involved a liquor store and beauty shop. Also in the 1940s, the planing mill was replaced by a gasoline service station, a school bus storage building was developed on the northeast portion of the property, and several older buildings were removed. In the 1950s, the subject property was occupied by a paint shop, machine shop, auto repair and upholstery company, beauty salon, plumbing company, furniture store, and the previous school bus storage building was used for furniture storage. By the 1960s, the building on the northeast portion of the subject property was replaced by a new building, which was occupied by a roofing company. Also in the 1960s, several of the buildings on the south portion of the property were removed, including the gasoline service station. The remaining buildings were occupied by a blueprint company, laundromat, and water softening company in the 1960s and 1970s. By 1981, the subject property was redeveloped with the existing bank building, drive-up ATM, and parking lot.

ES.1 Findings

Based on site observations and information gathered, the Phase I ESA revealed the following in connection with the subject property:

- Depth to groundwater is expected to be between 125 and 130 feet below ground surface (bgs) and the groundwater flow direction is expected to be north, following topography.

- Based on a review of aerial photographs, city directories, and fire insurance maps, the subject property was previously developed with multiple buildings that were occupied by various companies during the 1910s to 1970s. The former occupants included a lumber and mill company from the 1910s to 1920s, an auto repair garage from the 1920s to 1950s, a machine shop from the 1920s to 1960s, a gasoline service station from the 1940s to 1960s, and a laundromat in the 1970s. Laundromats typically use coin-operated machines for public use; however, some laundromat facilities include dry cleaning operations and the potential for dry cleaning operations cannot be ruled out.

  Based on the nature of operations, the former occupants likely used hazardous substances including gasoline, diesel fuel, oils, lubricants, coolants, and solvents. The lumber and mill company may have also used wood preservation chemicals. Additionally, the gasoline service station likely stored gasoline and diesel fuel in underground storage tanks (USTs). These companies operated prior to the promulgation of environmental regulations; therefore, records were not available to identify chemical storage and handling practices, to determine if the potential USTs were removed or left in-place, or to determine if any environmental testing was completed. Based on this information, the potential exists that an undocumented release occurred as a result of operations of one or more of the former occupants of the subject property, which is considered to be a REC and a potential vapor encroachment condition (VEC).

- Based on the history of use with various structures and businesses, the potential exists to encounter unexpected subsurface equipment such as USTs, buried utilities, foundations, piping, clarifiers, hydraulic lifts, etc. Should any of these features be encountered during redevelopment activities, they should be evaluated by an environmental professional to determine the proper handling procedures.

Additionally, the Phase I ESA revealed the following in connection with off-site properties:

- Gasoline service stations were previously located on the west, southwest, south, and southeast adjoining properties during the 1920s to 1960s. Based on the nature of operations, these facilities likely stored gasoline and diesel fuel in USTs. Based on the dates of operation prior to the promulgation of environmental regulations, there is a lack of documentation to indicate if the potential USTs were removed or left in-place and if any environmental testing was completed. Additionally, a dry cleaner operated approximately 200 feet southwest of the subject property during the 1990s. Based on proximity to the subject property and the potential for undocumented releases at one or more of the former adjacent gasoline service stations and/or the former nearby dry cleaner, the former offsite gasoline service stations and dry cleaner are considered to be an offsite REC and a potential VEC.

ES.2 Conclusions

EEC has performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-13 of the Citizens Business Bank property located at 225 W. 6th Street in Corona, California, the subject property. Any exceptions to, or deletions from, this practice are described in Section 1.4, *Limitations*, of this report. This assessment revealed the following REC in connection with the subject property.

- Potential for undocumented releases as a result of the former use of the subject property as a lumber and milling company, gasoline service station, auto repair garage, machine shop, and laundromat.

Additionally, this assessment identified the following offsite REC:

- Potential impacts to the subject property from former adjacent gasoline service stations and former nearby dry cleaner.

Based the results of this assessment, EEC recommends a limited subsurface assessment to address the onsite and offsite RECs.

1.0 INTRODUCTION

1.1 Objective

Northgate Gonzalez Real Estate, LLC (NGRE) retained EEC Environmental (EEC) to conduct a Phase I Environmental Site Assessment (ESA) at the Citizens Business Bank property located at 225 W. 6th Street in Corona, Riverside County, California (subject property). The objective of the Phase I ESA is to assess the environmental condition of the subject property and identify *recognized environmental conditions* (RECs), as defined by the American Society for Testing and Materials (ASTM), in connection with the subject property. This Phase I ESA in being conducted in association with a real estate transaction.

1.2 Definitions

The term *recognized environmental condition* (REC) is defined by the ASTM as "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment" (ASTM E1527-13 §3.2.78).

The term *controlled recognized environmental condition* (CREC) is defined by the ASTM as "a *recognized environmental condition* resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)" (ASTM E1527-13 §3.2.18).

The term *historical recognized environmental condition* (HREC) is defined by ASTM as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a historical recognized environmental condition, the environmental professional must determine whether the past release is a recognized environmental condition at the time the Phase I Environmental Site Assessment is conducted (for example, if there has been a change in the regulatory criteria)" (ASTM E1527-13 §3.2.42).

The term *vapor encroachment condition* (VEC) is defined by ASTM as the "presence or likely presence of COC [chemical of concern] vapors in the vadose zone of the TP [target property] caused by the release of vapors from contaminated soil and/or groundwater either on or near the TP as identified by Tier 1 or Tier 2 procedures" (ASTM E2600-15 §1.1.1).

The term *de minimis condition* is defined by ASTM as "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies" (ASTM E1527-13 §3.2.22).

1.3 Scope of Work

The assessment was conducted in accordance with the U.S. Environmental Protection Agency (USEPA) Standards and Practices for All Appropriate Inquiries (40 CFR 312); ASTM Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation E1527-13); and EEC's Standard Limitations. According to ASTM E1527-13, "the purpose of E1527 is to set forth a practice that constitutes all appropriate inquiries into the previous ownership and uses of the property consistent with good commercial and customary practice as defined at 42 U.S.C. 9601 (35)(B)." The Phase I ESA includes all the appropriate inquiries to support the innocent landowner defense pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act.

The assessment included the following tasks:

- Site reconnaissance to identify potential environmental concerns, such as historical and active USTs, aboveground storage tanks (ASTs), clarifiers, sumps, pits, lagoons, hazardous chemical storage areas, equipment that may contain polychlorinated biphenyls (PCBs), soil or pavement staining, and distressed vegetation.
- Review of the physical setting of the subject property, including general geology, topography, and hydrogeology.
- Visually evaluate neighboring properties to determine the potential for off-site contamination.
- Regulatory environmental file review of federal, tribal, state, regional, county, and city agency files related to the subject property(ies) and nearby properties of potential concern.
- Review of regulatory environmental database summary of federal, state, and tribal regulatory agency records associated with the subject property and off-site properties located within the ASTM-specified search distances from the subject property.
- Interviews with past and present owners, key site managers, and occupants of the subject property and state and/or local government officials to assist with identification of RECs in connection with the subject property.
- Review of reasonably ascertainable historical sources that may include aerial photographs, historical topographic maps, city directories, fire insurance maps, property tax files, recorded land title records, and building department and zoning/land use records to identify previous land use that may represent an REC.
- Review of available subject property environmental information, such as environmental reports and permits, to identify evidence of RECs.
- A review of recorded land title records, regulatory agency records, and State Institutional Controls/Engineering Controls databases for environmental liens or activity and use limitations (AULs).
- Review, in accordance with ASTM E2600-10, potential vapor encroachment conditions VECs at the subject property.
- Prepare a report documenting the methodology and findings of the Phase I ESA.

Additionally, the Phase I ESA included the following non-ASTM E1527-13 tasks:

- Review of available information related to asbestos-containing materials, lead-based paint, radon, wetlands, and flood zones.

1.4 Limitations

The conclusions presented in this report are professional opinions based solely upon visual observations of the subject property and subject property vicinity and EEC's interpretation of the available historical information and documents reviewed, as described in this report. The conclusions are intended exclusively for the purpose outlined in this report, for the specified subject property location, and for the project indicated. The opinions presented in this report apply to past and present conditions at the subject property and are not applicable to future conditions or events.

In accordance with Section 312.24, *Reviews of Historical Sources of Information*, of the All Appropriate Inquiries rule, all obvious uses of the subject property shall be identified from the present to "as far back as it can be shown that the property contained structures or from the time the property was first used for residential, agricultural, commercial, industrial, or governmental purposes." This task requires review of only as many historical sources as are necessary and are both reasonably ascertainable and likely to be useful. Historical sources could include aerial photographs, historical topographic maps, city directories, fire insurance maps, property tax files, recorded land title records, and building department and zoning/land use records. This ESA does not include physical testing for such non-scope considerations as an evaluation for the potential presence of lead in drinking water, radon gas, asbestos, or lead-based paint at the subject property. EEC's Standard Limitations are found in Appendix A.

1.4.1 Data Gaps

The term *data gap* is defined by ASTM as "a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional (EP) to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance (for example, an inability to conduct the site visit), and interviews (for example, an inability to interview key site manager, regulatory officials, etc.)." The ASTM standard requires that the report identify significant data gaps that affect the ability of the EP to ascertain RECs and to identify the sources of information that were consulted to address the data gaps.

Data Failure

The ASTM standard requires that all obvious uses of the subject property be identified from the present back to the property's first developed use, or back to 1940, whichever is earlier. Data failure is defined by ASTM as a failure to achieve historical research objectives after reviewing standard historical sources identified that are reasonably ascertainable and likely to be useful. The objective is to identify the history of use of the subject property and surrounding areas to identify past uses that may have led to RECs. This includes identifying the use of the subject property at five-year intervals back to the property's first developed use, or back to 1940, whichever is earlier. The earliest available historical source was a fire insurance map dated 1895, which indicated the subject property was developed with a single-family residence at the time. Previous historical sources were not available; therefore, it cannot be determined if the single-family residence is the first developed use. However, it is EEC's opinion that this data failure is not expected to prevent identification of RECs, because there is a low likelihood that the subject property was used for purposes that would involve environmental concerns, prior to being developed with the residence.

Unavailable Documentation

At the time of this Phase I ESA report, the following information was not available for review:

- EEC requested subject property information from the City of Corona and the Department of Toxic Substances Control (DTSC). EEC also requested information from the Riverside County Department of Environmental Health (DEH) pertaining to historical addresses of the subject property and adjoining gasoline service stations. EEC has not received a response as of the date of this report.

It is EEC's opinion that the missing information did not prevent identification of RECs, because sufficient information was identified in other sources reviewed during this assessment. Should any information received from the City of Corona, DTSC, and/or DEH change findings of this report, EEC will issue an addendum.

2.0 USER PROVIDED INFORMATION

The term *user* is defined by ASTM as "the party seeking to use Practice E1527 to complete an environmental site assessment of the property. A user may include, without limitation, a potential purchaser of the property, a potential tenant of property, an owner of property, a lender, or a property manager" (ASTM E1527-13 §3.2.98). NGRE is the user of this report. According to the ASTM standard, certain tasks should be performed by or on behalf of the user. The results of these tasks can be provided to the environmental professional to assist in identifying RECs in connection with the subject property.

The tasks include the following: review title and judicial records for environmental liens and activity and use limitations (AULs), communicate specialized knowledge related to RECs, communicate actual knowledge related to environmental liens or AULs prior to the site reconnaissance, indicate if the purchase price of the subject property is lower than the fair market value due to contamination, communicate commonly known or reasonably ascertainable information within the local community about the subject property related to RECs in connection with the subject property prior to site reconnaissance, consider the degree of obviousness of the presence or likely presence of releases at the subject property and the ability to detect the releases by appropriate investigation, and communicate the reason for the Phase I ESA. A User Questionnaire was provided to NGRE to request this information (Appendix B, *User Provided Information*). The User also provided a Preliminary Title Report, which is described in Section 5.5 of this report. Based on information provided by the User, no environmental concerns were identified in connection with the subject property.

3.0 SITE DESCRIPTION

The subject property is located northeast of the intersection of S. Belle Avenue and W. 6th Street in a commercial and residential land use setting in Corona, California (Figure 1, *Site Location Map*; Figure 2, *Site Vicinity Map*). The approximately 1.11-acre subject property consists of one parcel identified as Assessor's Parcel Number (APN) 117-144-017. The subject property is developed with a Citizens Bank Building on the southwest corner of the parcel. The remainder of the parcel is developed with an associated drive-up ATM structure, asphalt-paved parking lot, and landscaped areas. The subject property building was constructed in 1981.

3.1 Physical Setting

3.1.1 Topography

The subject property is depicted on the U.S. Geological Survey 7.5-minute, Corona North and Corona South, California, quadrangle maps, dated 2012. According to the maps, the subject property elevation is approximately 660 feet above mean sea level. The overall topography in the area around the subject property slopes to the north.

3.1.2 Geology and Hydrogeology

According to the Geological Map of the Corona North 7.5' Quadrangle, Riverside and San Bernardino Counties, California, the subject property is underlain by young alluvial fan deposits, Unit 1 (Holocene and late Pleistocene), which consist of pale-gray, unconsolidated, cobble- to granule-sized gravel (USGS and California Division of Mines and Geology, 1975 and 1995). According to United States Department of Agriculture (USDA) Soil Conservation Service (SCS) soil data provided by EDR, soil at the subject property consists of Garretson gravelly very fine sandy loam. According to a Second Quarter 2008 Monitoring Report for a site located approximately 425 feet west of the subject property, depth to groundwater is expected to range between 125 to 130 feet below ground surface (bgs; EAR Engineering, Construction & Support Services, 2008). The groundwater flow direction is expected to be north, based on topography.

4.0 SITE RECONNAISSANCE

On September 17, 2021, Ms. Vanessa Layne, Project Geologist with EEC, conducted site reconnaissance of the subject property and surrounding area to examine current conditions. Site reconnaissance included observations of existing conditions at the subject property, including evidence of current and past use of hazardous materials, and a perimeter survey from public rights-of-way. Ms. Layne was accompanied by Mr. Steve Chelimsky, Maintenance Supervisor with Citizens Business Bank, during the site reconnaissance.

4.1 General Observations

During the site reconnaissance, the subject property consisted of a Citizens Bank building, associated asphalt-paved parking lot, and drive-up ATM in the parking lot to the north of the building. The subject property building includes a large lobby with bank teller windows, cubicles along the eastern portion of the building, desks along the northwest portion of the building, conference rooms, bank vault, janitorial closet, network room, an employee kitchen and break room, restrooms, and storage rooms along the south portion of the building.

During the site inspection, EEC did not observe any evidence of mold, odors, pools of liquid, pits, ponds, lagoons, stained soil, or distressed vegetation on the subject property. Observations and details regarding specific site features are described in Sections 4.2 through 4.6 below.

4.2 Use of Hazardous Substances and Petroleum Products

EEC reviewed environmental records and conducted an inspection of the property to identify the use of hazardous substances and petroleum products. No hazardous materials or petroleum products are currently used at the subject property, with the exception of standard janitorial supplies.

Based on the subject property's former use as a gasoline service station, auto repair shop, and machine shop, gasoline, diesel fuel, oils, lubricants, coolant, and solvents were likely used onsite in the past. Additionally, lime was used in connection with the subject property's former use as a lumber yard and wood preserving chemicals may have also been used. The former use also included a laundromat, which typically do not use hazardous materials; however, they can often be combined with dry cleaning facilities, which use solvents.

4.3 Storage Tanks and Containers

4.3.1 Underground Storage Tanks

No visual evidence indicating the presence of USTs was identified at the subject property. In addition, no records indicating the presence of former USTs were found during file reviews. However, based on the subject property's former use as a gasoline service station, USTs were likely used onsite in the past to store gasoline and possibly diesel fuel. No specific information was available pertaining to the likely former USTs; therefore, it is not known if the potential USTs were removed or closed in-place or if any soil sampling was completed.

4.3.2 Aboveground Storage Tanks

No visual evidence indicating the presence of ASTs was identified at the subject property. In addition, no records indicating the presence of former ASTs were found during file reviews.

4.3.3 Drums

EEC did not observe visual evidence of drums during the site reconnaissance.

4.4 Polychlorinated Biphenyls

PCBs are chemicals that are widely used in industry for their heat-transfer properties. PCBs were historically used in electrical transformers, hydraulic fluids, and electrical equipment, such as fluorescent-light ballasts. PCBs are stable compounds that persist in the environment after a spill or improper disposal. PCBs are carcinogenic substances, and their use has been prohibited in most products since 1978. A Southern California Edison pad-mounted transformer was observed in the easter portion of the subject property parking lot (identification number P5193570). The transformer appeared to be in good condition, with no leaks or staining observed on or around the equipment. Based on the date of construction after 1978, it is unlikely that the transformer contains PCBs.

Fluorescent light fixtures are present at the subject property. Many fluorescent light ballasts manufactured prior to 1980 may contain PCBs. Based on the date of construction after 1980, it is unlikely that the fluorescent light ballasts contain PCBs.

4.5 Waste Management and Disposal

4.5.1 Hazardous Waste

The subject property does not currently generate hazardous waste. In addition, no records were found during file reviews that indicated the subject property previously generated hazardous waste. However,

based on the subject property's former use as a gasoline service station, auto repair shop, and machine shop, waste fuels, oils, lubricants, coolant, and solvents were likely generated onsite in the past. Other potential waste materials may have been generated by the lumber and milling company and the potential dry cleaning in connection with the laundromat.

4.5.2 Nonhazardous Waste

Non-hazardous waste is collected into bins located in a trash enclosure at the north portion of the subject property. The bins are emptied by Waste Management on a regular basis.

4.5.3 Solid Waste

The subject property was visually examined for graded or filled areas, mounds, and depressions that might indicate that disposal of solid waste, such as fill of unknown origin, trash, and demolition debris that may have taken place. No evidence of solid waste disposal was observed on the subject property.

4.5.4 Stormwater and Wastewater

Stormwater collected on the subject property flows via sheetflow to two stormwater drains located at the north portion of the subject property.

Wastewater generated by the use of sinks and toilets is discharged to the municipal sewer system. No evidence of septic systems or industrial wastewater discharge was identified in connection with the subject property.

4.6 Wells

No water supply wells were observed on the subject property or adjoining properties. According to EDR, the nearest public water supply well to the subject property is located approximately 1/8 mile to the east-southeast. This well is owned by the Lee Lake Water District.

4.7 Adjoining Properties

North – W. 5th Street, beyond which is an empty lot. A retail strip center is located to the northeast. No dry cleaners were observed in the retail strip center.

East – A vacant medical office building, beyond which is S. Main Street.

Southeast – W. 6th Street, beyond which is the Corona Public Library.

South – W. 6th Street, beyond which is a vacant medical office building.

Southwest – The intersection of S. Belle Avenue and W. 6th Street, beyond which is American Tire Depot.

West – S. Belle Avenue, beyond which is a retail strip center on the south portion of the property and residences on the north portion of the property. No dry cleaners were observed in the retail strip center.

Northwest – The intersection of S. Belle Avenue and W. 5th Street, beyond which are residences.

5.0 PROPERTY HISTORY

The subject property was developed with a single-family residence in 1895. In 1911, a large, multi-building lumber and mill company was developed on the subject property, in addition to the residence. In the 1920s, the lumber and mill operations ceased, with the exception of a planing mill, and the remaining buildings were occupied by various businesses, including an auto repair garage, machine shop, athletic club, and office. Additionally, a church occupied the residence in the 1920s. In the 1930s and 1940s, additional retail use involved a liquor store and beauty shop. Also in the 1940s, the planing mill was replaced by a gasoline service station, a school bus storage building was developed on the northeast portion of the property, and several older buildings were removed. In the 1950s, the subject property was occupied by a paint shop, machine shop, auto repair and upholstery company, beauty salon, plumbing company, furniture store, and the previous school bus storage building was used for furniture storage. By the 1960s, the building on the northeast portion of the subject property was replaced by a new building, which was occupied by a roofing company. Also in the 1960s, several of the buildings on the south portion of the property were removed, including the gasoline service station. The remaining buildings were occupied by a blueprint company, laundromat, and water softening company in the 1960s and 1970s. By 1981, the subject property was redeveloped with the existing bank building, drive-up ATM, and parking lot.

5.1 Aerial Photographs

The type and layout of structures visible in an aerial photograph of a property can often indicate the general type of on-site activity and land use; however, specific elements of a property operation cannot normally be determined from the photographs. EEC reviewed aerial photographs provided by EDR for the years of 1931, 1938, 1948, 1953, 1959, 1961, 1967, 1975, 1985, 1989, 1990, 1994, 1995, 2002, 2006, 2009, 2012, and 2016 (Appendix C, *Aerial Photographs*). Table 5-1, *Historical Land Use Based on Aerial Photographs*, summarizes the land use history of the subject property and vicinity based on a review of aerial photographs.

Table 5-1, Historical Land Use Based on Aerial Photographs

Year	Property	Vicinity
1931	The south portion of the subject property is developed with three commercial or industrial buildings and the north portion of the subject property consists of four apparent sheds and a possible outdoor equipment yard. An east/west-trending unpaved road extends across the center of the subject property.	Residences are visible on the surrounding properties to the east, north, and west. Commercial buildings are visible on the surrounding properties to the southeast, and southwest. The commercial building to the southwest appears similar in configuration to a gasoline service station. An additional building to the southeast also appears to be a possible gasoline service station based on its location relative to the corner of nearby street intersections.
1938	There are no significant changes from the previous photograph.	There are no significant changes from the previous photograph, except that apparent gasoline service stations are visible on the south and west adjoining properties.
1948	Two additional commercial or industrial buildings are visible on the south portion of the subject property and a commercial or industrial building is now visible on the	No significant changes are visible from the previous photograph.

Year	Property	Vicinity
	north portion of the subject property. Additionally, three of the apparent sheds and outdoor equipment yard are no longer visible on the north portion of the subject property.	
1953	There are no significant changes from the previous photograph, except that the remaining shed is no longer present.	No significant changes are visible from the previous photograph, except that a large commercial building and associated parking lot replaced residences on the east adjoining property. Additionally, one of the apparent gasoline service stations to the southeast changed configuration.
1959	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph.
1961	No significant changes were noted from the previous photograph.	No significant changes were noted from the previous photograph, except that one of the apparent gasoline service stations to the south changed configuration.
1967	Three of the former onsite buildings are no longer present and are replaced by a parking lot. The ground surface of the former equipment yard area has a white color, but the reason could not be determined. No other significant changes were noted from the previous photograph.	No significant changes were noted from the previous photograph, except that the apparent gasoline service station to the west is no longer visible.
1975	No significant changes were noted from the previous photograph.	No significant changes were noted from the previous photograph, except that new commercial buildings replaced the previous buildings on the south and southeast adjoining properties. Additionally, the apparent gasoline service station to the southwest is no longer visible and South Main Street is now visible beyond the east adjoining property (current configuration).
1985	The subject property is developed with the existing bank building and associated ATM structure and parking lot.	There are no significant changes from the previous photograph, except that a new commercial building is visible on the southwest adjoining property.
1989	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph, except that a new commercial or industrial building is visible on the northeast adjoining property and a new commercial or industrial building replaced the previous commercial buildings on the south portion of the west adjoining property.
1990	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph.
1994	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph, except that the commercial building on

Year	Property	Vicinity
		the southeast adjoining property is replaced by a new commercial building (similar to present).
2002	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph.
2006	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph, except that an area beyond the southwest adjoining property is now a grass field.
2009	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph, except that the residences to the north have been removed and the north adjoining property is now a vacant lot. Additional empty fields are visible further to the southwest.
2012	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph, except that the lot beyond the north adjoining property is now vacant.
2016	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph, except that an additional vacant lot is visible to the northeast, next to the north adjoining vacant lots.

5.2 Topographic Maps

The general land use of a property can often be discerned from the type and layout of structures and features depicted on a historical topographic map. However, discrete elements of a Subject Property operation cannot normally be determined from the map. EEC reviewed historical USGS topographic maps for the years of 1902, 1942, 1947, 1954, 1967, 1973, 1981/1982, 1988, 1997, and 2012 (Appendix D, *Historical Topographic Maps*). Table 5-2, *Historical Land Use Based on Topographic Maps* summarizes the land use history of the subject property and vicinity based on a review of topographic maps.

Table 5-2, Historical Land Use Based on Topographic Maps

Map Year/ Quadrangle	Subject property	Vicinity
1902/ Corona	The subject property is developed with one or more structures along W. 6th Street.	Surrounding properties consist of paved roads and an apparent mix of residential and commercial structures.
1942/ Corona and Vicinity	This map is created in a style that does not depict all individual structures; therefore, pertinent information about the subject property is not included on this map.	This map is created in a style that does not depict all individual structures; therefore, pertinent information about the surrounding properties is not included on this map.

Map Year/ Quadrangle	Subject property	Vicinity
1947/ Corona	The subject property is shaded pink, indicating general urban development.	The surrounding properties are shaded pink, indicating general urban development.
1954/ Corona North and Corona South	There are no significant changes from the previous map.	There are no significant changes from the previous map.
1967/ Corona North and Corona South	There are no significant changes from the previous map.	There are no significant changes from the previous map, except that the 91 Freeway is depicted in the general surrounding area to the north.
1973/ Corona North and Corona South	There are no significant changes from the previous map.	There are no significant changes from the previous map.
1981/ Corona North 1982/ Corona South	There are no significant changes from the previous map.	There are no significant changes from the previous map, except that Main Street to the east has changed configuration so that it bends toward the center of the city (similar to present).
1988/ Corona South	The subject property is not depicted on this map.	Only properties to the south of the subject property are depicted on this map. No significant changes were noted to these properties from the previous map.
1997/ Corona South	The subject property is not depicted on this map.	Only properties to the south of the subject property are depicted on this map. No significant changes were noted to these properties from the previous map.
2012/ Corona North and Corona South	This map is created in a style that does not depict individual buildings. Therefore, pertinent information about the subject property is not included on this map.	This map is created in a style that does not depict individual buildings. Therefore, pertinent information about the subject property is not included on this map.

5.3 City Directories

City directories from 1921 to 2017 were reviewed for the subject and adjoining properties (Appendix E, *City Directory Report*). The following listings were identified for the subject property:

225 W. 6th Street

- 1981: Corona Office, Loans, Savings, Statements
- 1986: Corona Office, Chio, Alice
- 1993: Corona Office, Checking and Savings Information, Loan Department

- 1999: Citizens Business Bank Corona
- 2001: Citizens Business Bank, Loan Department
- 2002: Citizens Business Bank
- 2004: James Pheifer
- 2009: Citizens Business Bank Corona Branch
- 2014, 2017: Citizens Business Bank

220 W. 5th Street (historical address)

- 1967: Garton Roofing Co.

213 W. 6th Street (historical address)

- 1927: Church of the Nazarene
- 1939: Medical office
- 1956: Used car lot

215 W. 6th Street (historical address)

- 1927: Residential listing
- 1939, 1941: Liquor store
- 1956: Corona Paint Center

215 ½ W. 6th Street (historical address)

- 1967, 1970: Corona Blueprint

217 W. 6th Street (historical address)

- 1924, 1931: Star Garage & Machine Works
- 1941: Finks Machine Shop
- 1956: Fink W. J. machine shop, Nicholson Lionel auto upholstery

219 W. 6th Street (historical address)

- 1941: Smith J. C. auto repair, Cervantes Lupe beauty shop

221 W. 6th Street (historical address)

- 1956: La Belle Beauty Salon

223 W. 6th Street (historical address)

- 1924: Blake W. P. mfr.
- 1927: Corona Athletic Club
- 1941: Eagle Super Service, Moore K. W. oil distributor
- 1967: Half Price Laundromat

- 1970: Koko's Soft Water Service Co.

Additionally, the following listings were identified in the surrounding area.

- North adjoining property: commercial retail listings including a restaurant, appliance center and washer shop, refrigeration equipment company, barber shop, and beauty salon between 1956 and 2004.
- East adjoining property: residential listings, including apartments, from 1924 to 1967; restaurant in 1994 to 2004; medical facility in 2014.
- Northeast adjoining property: residence in 1970.
- Southeast adjoining property: restaurant in 1924 to 1941; auto sales/repair and feed and fuel facility in 1927; tire shop in 1939 to 1941; offices in 1956; auto sales in 1931 to 1957; gasoline service station from 1924 to 1967.
- South adjoining property: Apartments and hotel in 1924 to 1941; residence in 1939; gasoline service station in 1939 to 1967; nail salon in 1993 to 1996; offices (mainly medical) in 1993 to 2017.
- West adjoining property: residences in 1927 to 2017; gasoline service station and auto sales in 1927 to 1967 with auto sales continuing to 1981; auto service in 1981; liquor store in 1993; office and retail businesses from 1981 to 2002.
- Southwest adjoining property: residence and gifts in 1927 to 1939; gasoline service station from 1924 to 1967; auto repair from 1941 to 2017; shoe repair in 1956 to 2002.

5.4 Fire Insurance Maps

EDR was contracted to conduct a search for Sanborn fire insurance maps (Appendix F, *Historical Sanborn Maps*). Fire insurance maps depict land use history for many portions of the United States and assist in determining whether there may be potential environmental contamination on or near a subject property. These maps, which have been periodically updated since the late 19th Century, often provide valuable insight into historical property uses. EEC reviewed historical fire insurance maps for the years of 1891, 1895, 1900, 1907, 1911, 1928, 1942, and 1960 (Appendix F). Table 5-3, *Historical Land Use Based on Fire Insurance Maps* summarizes the land use history of the subject property and vicinity based on a review of fire insurance maps.

Table 5-3, Historical Land Use Based on Fire Insurance Maps

Year	Property	Vicinity
1891	The subject property is not depicted on this map.	Only properties in the general surrounding area to the east are shown. These properties include a hotel and warehouse.
1895	The westernmost portion of the subject property is not depicted on this map. The remainder of the subject property includes a single-family residence on the southeast corner of the property, a paved road extending east/west across the center of the property, and a small structure adjacent to the south of the road.	To the north is a paved road, beyond which is undeveloped land. To the northeast and east are paved roads and an alley, beyond which are single-family residences. To the southeast is a paved road, beyond which is undeveloped land. To the south is a paved road, beyond which is The Cottage boarding house and a feed barn further to the south. The west, northwest, and southwest adjoining properties are not depicted on this map.

Year	Property	Vicinity
1900	There are no significant changes from the previous map, except that the entire subject property is depicted. The use of the subject property has not changed.	There are no significant changes from the previous map, except that an arbor is depicted on the east adjoining property and single-family residences are depicted to the west and southwest (all adjoining properties are now depicted on this map).
1907	There are no significant changes from the previous map, except that a shed or garage is depicted in the location of the former small structure.	There are no significant changes from the previous map, except that additional single-family residences and associated structures are depicted on the adjoining properties.
1911	In addition to the single-family residence, the subject property is now developed as Russ Lumber & Mill Co., which includes the following: planing mill, dressed lumber shed, garage and repair building, warehouse, cement storage, lime storage, a circular saw with a gasoline engine, outdoor lumber sheds, and two additional sheds.	No significant changes were noted from the previous photograph.
1928	The subject property is no longer labeled as Russ Lumber & Mill Co. Many shed buildings are still present but unlabeled. Some of the remaining buildings are still present, but the only one with the same use as the previous photograph is the planing mill. The garage and repair building is now an auto repair and machine shop building. The single-family residence is now a gospel hall. A store building was added between the gospel hall and the auto repair/machine shop building. An office is shown in the location of the dressed lumber shed.	No significant changes were noted from the previous photograph, except that general commercial use is depicted beyond the east adjoining property. Additionally, three gas and oil stations are depicted on the surrounding properties: on the east portion of the southeast adjoining property; on the southwest adjoining property, and on a property further to the southwest.
1942	No significant changes were noted from the previous photograph, except that the gospel hall and office are now stores and a gas and oil station is depicted on the southwest corner of the property, replacing the planing mill building. Additionally, a school bus storage building is depicted on the northeast corner of the property and only one shed building remains onsite.	No significant changes were noted from the previous photograph, except that a gas and oil station and auto sales and service facility are depicted on the south portion of the west adjoining property. Additionally, a gas and oil station with a washing area is depicted on the south adjoining property and multiunit building is depicted on the southeast adjoining property that includes a restaurant, metal work, auto service, and a store.
1960	No significant changes were noted from the previous photograph, except that the auto repair facility was replaced by a furniture store, one of the stores is labeled “paint”, the gas and oil station is no longer present, a new store is located north of the former gas and oil station, a plumbing facility is located near the machine shop, and a furniture storage company now occupies the former school bus storage building. Additionally, one of the sheds is no longer present.	No significant changes are visible from the previous photograph, except that a large store is depicted on the east adjoining property, the gas and oil station to the south has changed configuration and no longer includes a wash area. A used auto sales facility is also shown on the south adjoining property.

5.5 Property Title Records

EDR was contracted to conduct a search for environmental liens and AULs pertaining to the subject property. According to the Environmental Lien Search Report, title is vested in Citizens Business Bank, a California banking corporation. Title was received from Citizens Business Bank, a California banking corporation, formerly known as Chino Valley Bank, a California Corporation on April 12, 2006. No environmental liens or AULs were identified for the subject property in the Environmental Lien Search Report (Appendix G, *Environmental Lien Search Report*).

Additionally, NGRE provided a Preliminary Title Report for the subject property (Appendix B). According to the report, easements for utilities and streets are recorded for the subject property. No environmental liens or AULs were identified for the subject property in the Preliminary Title Report.

5.6 Previous Environmental Reports and Documents

No previous environmental reports or documents were provided for review.

6.0 INTERVIEWS

During this assessment, Ms. Layne conducted interviews with past and present owners, key site managers, and occupants of the subject property to obtain information related to RECs in connection with the subject property. Information obtained from the interviews is provided in Table 6-1, *Interviews*.

Table 6-1, Interviews

Name, Title, and Relationship to Property	Information Obtained
Subject property owner representative, Mr. Dave Iler, Vice President of Corporate Real Estate	Mr. Iler has been associated with the subject property for three years. Based on the completed questionnaire, he is not aware of any environmental concerns at the subject property, such as hazardous materials, petroleum products, drums, fill dirt, waste pits, ponds, or lagoons, stained soil, USTs, ASTs, wells, wastewater treatment systems, grease traps, clarifiers, sumps, hazardous waste or other waste materials onsite, transformers, hydraulic lifts, elevators, vent pipes, fill pipes, foul odors emanating from drains, flooring, or walls, or previous environmental assessments or work that identified contamination. He stated that he is not aware of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products. He also stated that he is not aware of any past, threatened, or pending litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property.
Site occupant, Mr. Steve Chelimsky, Maintenance Supervisor	During the site reconnaissance, Mr. Chelimsky provided information about the subject property operations. According to Mr. Chelimsky, he is not aware of any ASTs or USTs at the subject property. He indicated that there are no hazardous materials used onsite, with the exception of standard janitorial cleaning supplies. Mr. Chelimsky was not aware of any environmental concerns in connection with the subject property.
Past owner	The past owner was not interviewed during this assessment, because contact information was not provided.

7.0 REGULATORY AGENCY FILE REVIEWS

EEC submitted written requests to various government agencies for information regarding historical land use and potential environmental issues and to evaluate the potential for the subject property to be impacted by off-site sources of contamination (Appendix H, *Agency Correspondence*).

7.1 Federal

7.1.1 United States Environmental Protection Agency

On October 14, 2021, EEC accessed the USEPA MyProperty online database. According to the database, there are no records on file for the subject property.

7.1.2 Pipeline and Hazardous Materials Safety Administration

The Pipeline and Hazardous Materials Safety Administration, National Pipeline Mapping System Public Map Viewer was accessed on October 14, 2021 to determine if any pipelines or related accidents are located on or near the subject property. According to the website, there are no pipelines within ½ mile of the subject property.

7.2 State

7.2.1 California Geologic Energy Management Division

The California Geologic Energy Management Division (CalGEM) Well Finder was accessed on October 14, 2021. According to the website, there are no oil or gas wells within two miles of the subject property.

7.2.2 California Department of Toxic Substances Control

On October 14, 2021, EEC contacted the California Department of Toxic Substances Control (DTSC) to determine if there are any records on file for the subject property. EEC has not received a response as of the date of this report.

Additionally, on October 15, 2021, EEC accessed the DTSC EnviroStor website to determine if the subject property or adjoining properties have any land use restrictions or environmental liens. According to the EnviroStor database, no land use restrictions or environmental liens were identified for the subject property or adjoining properties.

7.2.3 State Water Resources Control Board

On September 13, 2021, EEC requested a file review with the Santa Ana Regional Water Control Board (RWQCB). According to the RWQCB, there are no records on file for the subject property.

7.3 Regional

7.3.1 South Coast Air Quality Management District

On September 21, 2021, EEC requested a file review with the South Coast Air Quality Management District. According to the SCAQMD, there are no records on file for the subject property.

7.4 County

7.4.1 Riverside County Department of Environmental Health

On September 27, 2021, EEC requested a file review with the Riverside County Department of Environmental Health (DEH). On October 5, 2021, the DEH responded that there are no records on file for the subject property. Additionally, on October 14, 2021, EEC submitted additional requests to the DEH for historical subject property addresses and adjoining gasoline service stations. EEC has not received a response regarding the additional files as of the date of this report.

7.5 Local

7.5.1 City of Corona

On September 13, 2021, EEC contacted the City of Corona to request copies of all building records for the subject property and to inquire if any industrial wastewater records are on file for the subject property. Additionally, EEC inquired if the Fire Department has any records pertaining to hazardous materials or chemicals onsite. EEC has not received a response from the City of Corona as of the date of this report.

8.0 ENVIRONMENTAL DATABASE SEARCH

EEC contracted EDR to perform a regulatory database review for the subject property and surrounding properties up to 1.0 mile from the subject property (Appendix I, *EDR Database Search Report*). The purpose of the database review is to identify sites of potential environmental concern, such as leaking underground storage tank (LUST) sites; spills, leaks, investigation, and cleanup (SLIC) sites; historical gasoline service stations and dry cleaners; hazardous waste sites; landfills; and sites that are currently under investigation for environmental violations. The EDR radius report includes maps showing the locations of the environmental concerns.

The historical subject property addresses of 217-219 W. 6th Street were identified on the EDR Hist Auto database. According to the database, the following auto repair companies were identified on the subject property: Star Garage & Machine Works in 1924, Fink S. Garage and Machine Shop in 1927, and Smith J. C. in 1939. No other information was provided in the listings.

EEC evaluated all adjoining or nearby sites listed on the database for their potential to impact the subject property. Table 8-1, *Environmental Database Search Results*, summarizes the results of the database search for nearby sites of environmental interest. Not all sites on the database are included on the table below; however, all offsite properties were evaluated to determine if they present an environmental concern to the subject property.

Table 8-1, Environmental Database Search Results

Site Name and Address	Database	Location and Presumed Hydraulic Gradient Relative to Subject Property	Description
Ramsey Holder 302 W. 6th Street	EDR Hist Auto	Southwest adjoining property, crossgradient	According to the database, a gas and oil service station and auto repair facility operated at this site in 1939. No other information was included in the listing. EEC requested information for this site from the Riverside County DEH but has not received a response as of the date of this report. Historical aerial photographs, city directories, and fire insurance maps (Sections 5.1, 5.3, and 5.4) indicated that this facility operated from the 1920s to 1960s); therefore, it is unlikely that files exist. Based on proximity to the subject property this site represents an environmental concern.
Ramona Tire Inc./ATV Inc. dba American Tire Depot 304 W. 6th Street	CERS HAZ WASTE, HAZNET, CERS, HWTS, RCRA NonGen/NLR	Southwest adjoining property, crossgradient	According to the databases, this site generated organic solids, organic liquid mixture, aqueous solution with organic residues, oil-containing waste, and solvent mixture from 1998 to 2014. The site received violations, most of which did not indicate a release occurred. One of the violations indicated that oil had spilled in the storage area; however, this appeared to be a minor release. Based on the lack of releases (other than the minor oil spillage), this site is not expected to represent an environmental concern.
Albert Klein 301 W. 6th Street	EDR Hist Auto	West adjoining property, crossgradient	According to the database, a gas and oil service station operated at this site in 1939. No other information was included in the listing. EEC requested information for this site from the Riverside County DEH but has not received a response as of the date of this report. Historical aerial photographs, city directories, and fire insurance maps (Sections 5.1, 5.3, and 5.4) indicated that this facility operated from the 1920s to 1960s); therefore, it is unlikely that files exist. Based on proximity to the subject property this site represents an environmental concern.
Tucker & Moores Gilmore Service 224 W. 6th Street	EDR Hist Auto	South adjoining property, upgradient	According to the database, a gas and oil service station operated at this site in 1939. No other information was included in the listing. EEC requested information for this site from the Riverside County DEH but has not received a response as of the date of this report. Historical aerial photographs, city directories, and fire

			insurance maps (Sections 5.1, 5.3, and 5.4) indicated that this facility operated from the 1920s to 1960s); therefore, it is unlikely that files exist. Based on proximity and the site's upgradient location relative to the subject property, this site represents an environmental concern.
Hoskins C. W./Kirkpatrick Virgil P. 204/202 W. 6th Street	EDR Hist Auto	Southeast adjoining property, crossgradient	According to the database, a gas and oil service station and auto repair facility operated at this site in 1939 and a gasoline service station operated in 1969 to 1970. No other information was included in the listing. Historical aerial photographs, city directories, and fire insurance maps (Sections 5.1, 5.3, and 5.4) indicated that this facility operated from the 1920s to 1960s); therefore, it is unlikely that files exist. Based on proximity to the subject property this site represents an environmental concern.
American Dry Cleaners 312 W. 6th Street	EDR Hist Cleaner	Approximately 200 feet southwest, crossgradient	According to the database, American Dry Cleaners operated at this site from 1991 to 1994. No other information was included in the listing. Based on the high likelihood of releases from dry cleaners and proximity to the subject property, this site represents an environmental concern.
Gagner Edmund Rear/Corona Regional Medical Center LLC 320 W. 6th Street	EDR Hist Auto/ RCRA NonGen/NLR	Approximately 250 feet southwest, crossgradient	According to the database, auto repair shops operated at this site in 1927 and 1939. The medical center listing indicates the site does not generate waste and no violations were found. Based on this information, this site is not considered to be an environmental concern.
Corona RDA Main at Ramona Property 480 S. Main Street/599 S. Ramona Avenue	US BROWNFIELDS	Approximately 250 east, crossgradient	According to the database, the property is currently the Corona Mall and was previously residential, retail, warehouses, lumber company, commercial, bank, hotel from 1891 to 1969 and Corona Mall from 1969 to present. A Phase I Environmental Site Assessment was completed in 2010. The results were not included, and it appears the status was "undetermined"; however, no contaminants were identified. Based on this information and the site's distance and crossgradient location relative to the subject property, it is not expected to represent an environmental concern.
Bridges J. J. 319 W. 6th Street	EDR Hist Auto	Approximately 300 feet west, crossgradient	According to the database, a gas and oil service station operated at this site in 1939 and Star Body Auto Parts operated at this site in 2010. Based on the site's distance and crossgradient location

			relative to the subject property, it is not expected to represent an environmental concern.
EZ Stop/PS 6/Palm Springs Oil Company/AAAA Fueling Inc./Corona Beacon/G&G Auto & Truck 401 6th Street	LUST, Hist Cortese, HIST UST, RCRA-SQG, CERS HAZ WASTE, CERS TANKS, FINDS, ECHO, CORTESE, HAZNET, CERS, HWTS	Approximately 425 feet west, crossgradient	According to the databases, a release of waste oil was identified in 1992. The case was closed in 1995. Additionally, a release of gasoline was discovered in 1990 during tank closure. The contaminated soil was excavated and disposed at an approved site. Remediation by soil vapor extraction and groundwater monitoring was completed. The site was considered to be adequately characterized and residual impacts remained but were limited to a lens of low permeability and does not pose a threat to groundwater. The case was closed in 2010. Based on the site's distance, crossgradient location relative to the subject property, and case closed status, it is not expected to represent an environmental concern.
American Dry Cleaners 425 S. Corona Mall	EDR Hist Cleaner	Approximately 575 feet northeast, crossgradient	According to the database, American Dry Cleaners operated at this site from 1970 to 1975. Based on the site's distance and crossgradient location relative to the subject property, it is not expected to represent an environmental concern.
American Drive Thru Cleaners 310 S. Main Street	EDR Hist Cleaner, DRYCLEANERS	Approximately 700 feet northeast, crossgradient	According to the database, American Drive Thru Cleaners generated hazardous waste and used perchloroethylene in its dry-cleaning process. Based on the site's distance and crossgradient location relative to the subject property, it is not expected to represent an environmental concern.

The database compilation report also includes a list of unmappable sites (Orphans Summary). Data provided, such as city names, addresses, and zip codes, were cross-referenced with visual site reconnaissance and searches of online mapping tools to determine if the subject property or any nearby sites of potential environmental concern were listed. The subject property was not listed on the unmappable sites list. No sites of potential environmental concern were identified on the unmappable sites list.

9.0 VAPOR ENCROACHMENT SCREENING

As part of this Phase I ESA, EEC conducted a vapor encroachment screening utilizing the ASTM E2600-15 Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions and the Buonicore Methodology for Identifying the Area of Concern Around a Property Potentially Impacted by Vapor Migration from Nearby Contaminated Sources (Buonicore, 2011). The area of concern (AOC) is determined from the subject property boundary to the potential source of contamination. The AOC distance is determined based upon a conservative plume length estimate and the distance that volatilized vapors may travel along a path of least resistance from a plume. A 90th-percentile distance was utilized to determine the plume length in order to determine AOCs.

EEC reviewed release cases and potential sources of releases (such as historical gasoline service stations and dry cleaners) within the 1,760-foot AOC for non-petroleum hydrocarbons and the 528-foot AOC for petroleum hydrocarbons. Using the Buonicore method, EEC reduced the AOC for release cases that were determined to be crossgradient or downgradient relative to the subject property. Using this method, the AOC for crossgradient sites with non-petroleum hydrocarbons is 365 feet and the AOC for crossgradient sites with petroleum hydrocarbons is 95 feet (dissolved petroleum hydrocarbons) or 165 feet (with free product). The AOC for downgradient sites is 100 feet, unless it is a petroleum hydrocarbon release with dissolved petroleum hydrocarbons, in which case the AOC is 30 feet.

Based on information reviewed during this assessment, the following VECs were identified:

- The potential for undocumented releases as a result of the former use of the subject property as a lumber and milling company, gasoline service station, auto repair garage, machine shop, and laundromat is considered to be a potential VEC.

- Potential impacts to the subject property from the former adjacent gasoline service stations and a former nearby dry cleaner are a potential VEC.

10.0 NON-ASTM CONSIDERATIONS

10.1 Asbestos

Asbestos is a naturally occurring fibrous mineral that was extensively used in the past for its insulation qualities. Asbestos fibers can be found in thermal insulation, fire-proofing material, vinyl floor tiles, mastic, wallboard, ceiling tiles, roofing material, and numerous other materials. After asbestos was determined to be carcinogenic, its use was severely restricted in the late 1970s. Building materials are classified as asbestos-containing material (ACM) if they contain greater than 1% asbestos fibers. Such material is considered a hazardous material and must be properly disposed of when removed or managed under an operations and maintenance plan.

Due to the date of the building construction (1981), there is a low potential that ACMs exist at the subject property. However, only a complete, intrusive asbestos sampling survey can definitively determine the presence of ACMs.

10.2 Lead-Based Paint

A lead-based paint survey was not conducted as part of this assessment. However, based on visual observations, painted surfaces observed during the site reconnaissance were generally in good condition.Due to the date of the building construction (1981), there is a low potential that lead-based paint exists at the subject property. However, only a complete, intrusive lead-based paint sampling survey can definitively determine the presence of lead-based paint.

10.3 Radon

Radon is an odorless, radioactive gas that occurs naturally in soil, rock, and building materials. It results from the natural radioactive decay of radium and uranium. In outdoor air, radon is generally diluted to such low concentrations that it is usually not of concern. In enclosed spaces, such as homes, offices, and/or

basements, radon can accumulate and pose an environmental concern. Indoor levels of radon depend on a building's construction and the concentration of radon in the underlying soil and rock.

The subject property is located within Riverside County, California, which has been designated by the USEPA as Radon Zone 2. Zone 2 is designated as having an indoor radon average of between 2 and 4 picocuries per liter (pCi/L). The USEPA has set a standard of 4.0 pCi/L as the concentration of radon at which corrective action is recommended. According to the EDR environmental database report, State radon testing was performed at 30 sites in the subject property zip code and none of the sites contained radon levels that exceeded 4.0 pCi/L. Federal radon testing was performed at 12 sites in the subject property zip code and 100% of the sites had radon concentrations that were below 4.0 pCi/L. Based on this information, there is low potential for elevated levels of radon at the subject property. However, radon testing is the only way to determine specific radon concentrations at a property.

10.4 Mold

EEC conducted a visual inspection to determine the presence of mold or conditions conducive to mold at the subject property. EEC did not identify evidence of mold or conditions conducive to mold in the inspected areas of the subject property. However, only a complete, intrusive mold assessment and sampling survey can definitively determine the presence of mold at the subject property.

10.5 Flood Zone

According to information provided on the Federal Emergency Management Agency Flood Insurance Rate Map for the City of Corona, California, Map Number 06065C0689G, dated August 28, 2008, the subject property is located in Zone X, areas outside the 0.2% annual chance floodplain. The west, southwest, and northwest adjoining properties are also located in Zone X, but with the designation of being in areas of 0.2% annual chance flood; areas of 1% annual chance flood with average depths of less than one foot or with drainage areas less than one square mile; or areas protected by levees from 1% annual chance flood.

10.6 Federal Wetlands

No designated wetlands were identified on the subject property based on a review of the EDR environmental database report. In addition, no natural standing bodies of water or typically hydrophytic vegetation were observed on the subject property during site reconnaissance. A review of the U.S. Fish & Wildlife Service National Wetlands Inventory Wetlands Mapper did not identify any riparian or wetlands areas in the vicinity of the subject property.

11.0 FINDINGS AND CONCLUSIONS

11.1 Findings

Based on site observations and information gathered, the Phase I ESA revealed the following in connection with the subject property:

- Depth to groundwater is expected to be between 125 and 130 feet below ground surface (bgs) and the groundwater flow direction is expected to be north, following topography.

- Based on a review of aerial photographs, city directories, and fire insurance maps, the subject property was previously developed with multiple buildings that were occupied by various

companies during the 1910s to 1970s. The former occupants included a lumber and mill company from the 1910s to 1920s, an auto repair garage from the 1920s to 1950s, a machine shop from the 1920s to 1960s, a gasoline service station from the 1940s to 1960s, and a laundromat in the 1970s. Laundromats typically use coin-operated machines for public use; however, some laundromat facilities include dry cleaning operations and the potential for dry cleaning operations cannot be ruled out.

Based on the nature of operations, the former occupants likely used hazardous substances including gasoline, diesel fuel, oils, lubricants, coolants, and solvents. The lumber and mill company may have also used wood preservation chemicals. Additionally, the gasoline service station likely stored gasoline and diesel fuel in USTs. These companies operated prior to the promulgation of environmental regulations; therefore, records were not available to identify chemical storage and handling practices, to determine if the potential USTs were removed or left in-place, or to determine if any environmental testing was completed. Based on this information, the potential exists that an undocumented release occurred as a result of operations of one or more of the former occupants of the subject property, which is considered to be a REC and a potential VEC.

- Based on the history of use with various structures and businesses, the potential exists to encounter unexpected subsurface equipment such as USTs, buried utilities, foundations, piping, clarifiers, hydraulic lifts, etc. Should any of these features be encountered during redevelopment activities, they should be evaluated an environmental professional to determine the proper handling procedures.

Additionally, the Phase I ESA revealed the following in connection with off-site properties:

- Gasoline service stations were previously located on the west, southwest, south, and southeast adjoining properties during the 1920s to 1960s. Based on the nature of operations, these facilities likely stored gasoline and diesel fuel in USTs. Based on the dates of operation prior to the promulgation of environmental regulations, there is a lack of documentation to indicate if the potential USTs were removed or left in-place and if any environmental testing was completed. Additionally, a dry cleaner operated approximately 200 feet southwest of the subject property during the 1990s. Based on proximity to the subject property and the potential for undocumented releases at one or more of the former adjacent gasoline service stations and/or the former nearby dry cleaner, the former offsite gasoline service stations and dry cleaner are considered to be an offsite REC and a potential VEC.

11.2 Conclusions

EEC has performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-13 of the Citizens Business Bank property located at 225 W. 6th Street in Corona, California, the subject property. Any exceptions to, or deletions from, this practice are described in Section 1.4, *Limitations*, of this report. This assessment revealed the following REC in connection with the subject property.

- Potential for undocumented releases as a result of the former use of the subject property as a lumber and milling company, gasoline service station, auto repair garage, machine shop, and laundromat.

Additionally, this assessment identified the following offsite REC:

- Potential impacts to the subject property from former adjacent gasoline service stations and former nearby dry cleaner.

Based the results of this assessment, EEC recommends a limited subsurface assessment to address the onsite and offsite RECs.

12.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

This Phase I ESA was performed by Ms. Laura Holder, a project manager trained in the performance of environmental investigations pursuant to accepted government and industry standards. Ms. Holder has 16 years of experience in environmental consulting and has a Bachelor of Arts in Geography from Sonoma State University in Rohnert Park, California. Ms. Holder has performed hundreds of Phase I ESAs in California, Nevada, Arizona, and Texas. Additionally, Ms. Holder has performed compliance audits, subsurface investigations, hazardous materials business plans, and litigation support.

This Phase I ESA was reviewed and overseen by Ms. Emily Vavricka, a Project Scientist trained in the performance of environmental investigations pursuant to accepted government and industry standards. Ms. Vavricka has more than 16 years of experience in environmental consulting and has a Master of Science in Environmental Science / Hydrogeology from California State University, Fullerton, and a Bachelor of Science in Environmental Science from University of California, Riverside.

Résumés for environmental professionals involved in this assessment are included in Appendix J, *Environmental Professional Résumés*.

12.1 Certification

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR § 312.

We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Laura Holder
Project Manager

Emily Vavricka
Project Scientist

APPENDIX A
EEC STANDARD LIMITATIONS

STANDARD LIMITATIONS

The conclusions and recommendations contained in this report/assessment are based upon professional opinions with regard to the subject matter. These opinions have been arrived at in accordance with currently accepted hydrogeologic and engineering standards and practices applicable to this location and are subject to the following inherent limitations:

1. EEC derived the data in this report primarily from visual inspections, examination of records in the public domain, and interviews with individuals having information about the site. The passage of time, manifestation of latent conditions, or occurrence of future events may require further exploration at the site, analysis of the data, and reevaluation of the findings, observations, and conclusions in the report.

2. The data reported and the findings, observations, and conclusions expressed in the report are limited by the scope of the work. The scope of the work was defined by the request of the client, the time and budgetary constraints imposed by the client, and availability of access to the site.

3. Because of the limitations stated above, the findings, observations, and conclusions expressed by EEC in this report are not, nor should not be, considered an opinion concerning the compliance of any past or present owner or operator of the site with any federal, state, or local law or regulation.

4. EEC's Phase I reports present professional opinions and findings of a scientific and technical nature. While attempts were made to relate the data and findings to applicable environmental laws and regulations, the report shall not be construed to offer legal opinion or representations as to the requirements of, nor compliance with, environmental laws, rules, regulations, or policies of federal, state, or local government agencies. Any use of the Phase I report constitutes acceptance of the limits of EEC's liability. EEC's liability extends only to its client and not to any other parties who may obtain the Phase I report. Issues raised by the report should be reviewed by appropriate legal counsel.

5. The conclusions presented in this report are professional opinions based on data described in this report. They are intended only for the purpose, site location, and project indicated. This report is not a definitive study of contamination at the site and should not be interpreted as such. An evaluation of subsurface soil and ground water conditions was not performed as part of this investigation. No sampling or chemical analyses were performed or assessment of asbestos-containing materials was completed as part of this study unless explicitly stated.

6. This report is based, in part, on unverified information supplied to EEC by third-party sources. While efforts have been made to substantiate this third-party information, EEC cannot guarantee its completeness or accuracy.

USER QUESTIONNAIRE

Phase I Environmental Site Assessment (ESA)

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001, the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.20, and 312.31. The User should provide the following information to the *environmental professional*. Failure to conduct these inquiries could result in a determination that "*all appropriate inquiries*" is not complete.

1. **Environmental liens that are filed or recorded against the *property* (40 CFR 312.25).**
   Did a search of *recorded land title records* (or judicial records where appropriate*) identify any environmental liens filed or recorded against the *property* under federal, tribal, state, or local law?

   YES ☐ NO ☑
   If you checked yes, please describe here:

2. **Activity and land use limitations that are in place on the property or that have been filed or recorded against the property (40 CFR 312.26[a][1][v] and [vi]).**
   Did a search of *recorded land title records* (or judicial records where appropriate*) identify any activity and use limitations (AULs), such as *engineering controls,* land use restrictions, or *institutional controls* that are in place at the *property* and/or have been filed or recorded against the *property* under federal, tribal, state, or local law?

   YES ☐ NO ☑
   If you checked yes, please describe here:

3. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).**
   Do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the *property* or *adjoining property* so that you would have specialized knowledge of the processes used by this type of business?

   YES ☐ NO ☑
   If you checked yes, please describe here:

4. **Relationship of the purchase price to the fair market value of the *property* if it were not contaminated (40 CFR 312.29).**
   Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

   YES ☑ NO ☐
   If you checked no, please describe here:

5. **Commonly known or *reasonably ascertainable* information about the *property* (40 CFR 312.30).**
   Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? YES ☐ NO ☑
   For example:
   a. Do you know the past uses of the *property*?
      YES ☐ NO ☑
   b. Do you know of specific chemicals that are present or once were present at the *property?*
      YES ☐ NO ☑
   c. Do you know of any spills or other chemical releases that have taken place at the *property?*
      YES ☐ NO ☑
   d. Do you know of any environmental cleanups that have taken place at the *property*?
      YES ☐ NO ☑

   If you checked yes on any of the questions related to #5, please describe here:

6. **The degree of obviousness of the presence or likely presence of contamination at the *property,* and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).**
   Based on your knowledge and experience related to the *property* are there any *obvious* indicators that point to the presence or likely presence of releases at the *property*?

Responses Provided By: Dave Iler

Company / Title: VP Corporate Real Estate

Date: 9/17/2021

Notes: *In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases judicial records must be searched for environmental liens and AULs.
The questions provided in this questionnaire were obtained from the American Society for Testing and Materials (ASTM) Standard E1527-13.
Text in *italics* are as defined in the ASTM Standard E1527-13.

Orange Coast Title Company

2151 E. Convention Center Way, Suite 102
Ontario, CA 91764
909-987-5433

PRELIMINARY REPORT

Chicago Title
9090 Milliken Avenue Ste 100
Rancho Cucamonga, CA 91730

Attention:	Pam Fry	**Your no.:**	00159984-022-PF1
Property address:	225 W 6th Street, Corona, CA 92882	**Order no.:**	140-2279111-32

Dated: September 21, 2021

In response to the above referenced application for a policy of title insurance, **Orange Coast Title Company** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit B attached. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit B. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit B of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters, which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of August 25, 2021 at 7:30 AM

Manny Villalobos, Title Officer
Ph: 909-987-5433
Email: mannyv@octitle.com

The form of policy of title insurance contemplated by this report is:

C.L.T.A. Standard Coverage Policy - 1990 (Owner's Policy or Joint Protection) and A.L.T.A. Loan Policy (06-17-06)

See attached disclosure.

Schedule "A"

The estate or interest in the land hereinafter described or referred to covered by this report is:

A Fee

Title to said estate or interest at the date hereof is vested in:

Citizens Business Bank, a California banking corporation

The land referred to in this report is situated in the City of Corona, the County of Riverside, State of California, and is described as follows:

Lots 7 through 12, inclusive, of Block 145 of the South Riverside Townsite, in the City of Corona, County of Riverside, State of California, as shown by map recorded in Book 9, Pages 6 and 8 of Maps, in the Office of the County Recorder of San Bernardino County, together with all that portion of the East-West unnamed alley (16 feet wide), as vacated and closed to public use by Resolution No. 76-70, recorded June 24, 1976 as Instrument No. 90734 and the Easterly 6 feet of Belle Avenue vacated and closed to public use by Resolution 76-81, recorded July 16, 1976 as Instrument No. 103437, both of Official Records.

Assessor's Parcel Numbers(s): 117-144-017

Schedule "B"

At the date hereof exceptions to coverage in addition to the printed exceptions and exclusions contained in said policy form would be as follows:

1 General and Special taxes for the fiscal year 2021-2022, including any assessments collected with taxes. A lien not yet payable.

First installment due and payable 11/01/2021, delinquent if not paid by 12/10/2021
Second installment due and payable 02/01/2022, delinquent if not paid by 04/10/2022

2 General and Special taxes for the fiscal year 2020-2021, including any assessments collected with current taxes.

9 "NOTE: Please be advised that our search did not disclose any open Deeds of Trust of record. If you should have knowledge of any outstanding obligation, please contact your title officer immediately for further review".

10 This company will require the following in order to insure title in, or a conveyance or encumbrance from the entity named below.

Name: Citizens Business Bank, a California banking corporation

(a) A copy of the by-laws or articles of association (sometimes known as the "agreement" or "charter").

(b) A copy of the resolution of the association approving the present transaction and identifying the subject land. The resolution should also state that the transaction is necessary for the business purposes of the association and should name the parties who are authorized to execute documents for the association.

(c) Articles of incorporation

11 Rights of parties in possession of said land by reason of unrecorded leases, if any. Please forward said leases for our examination.

12 Any facts, rights, interest or claims which may be shown by an inspection of the land or which may be disclosed by inquiry of persons in possession of said land.

13 (A) Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records;

Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

(B) Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.

(C) Easements, liens or encumbrances, or claims thereof, which are not shown by the public records.

(D) Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records

(E) (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the public records

(F) Any lien or right to a lien for services, labor or material theretofore or hereafter not shown by the public records.

Exceptions A-F will be omitted on extended coverage policies.

Notes section continued on next page…

NOTE NO. 2

California Revenue and Taxation Code Section 18662, effective January 1, 1994 and by amendment effective January 1, 2003, provides that the buyer in all sales of California Real Estate may be required to withhold 3 and 1/3% of the total sales price as California State Income Tax, subject to the various provisions of the law as therein contained.

NOTE NO. 3 PAYOFF INFORMATION:

Note: this company does require current beneficiary demands prior to closing.
If the demand is expired and a correct demand cannot be obtained, our requirements will be as follows:

A. If this company accepts a verbal update on the demand, we may hold an amount equal to one monthly mortgage payment. The amount of this hold will be over and above the verbal hold the lender may have stipulated.

B. If this company cannot obtain a verbal update on the demand, will either pay off the expired demand or wait for the amended demand, at the discretion of the escrow.

C. In the event that a payoff is being made to a servicing agent for the beneficiary, this company will require a complete copy of the servicing agreement prior to close.

NOTE NO. 4

If this company is requested to disburse funds in connection with this transaction, chapter 598, statutes of 1989 mandates hold periods for checks deposited to escrow or sub-escrow accounts. The mandatory hold is one business day after the day deposited. Other checks require a hold period from three to seven business days after the day deposited.

Notice Regarding Your Deposit of Funds

California Insurance Code Sections 12413 *et. Seq.* Regulates the disbursement of escrow and sub-escrow funds by title companies. The law requires that funds be deposited in the title company escrow and sub-escrow accounts and be available for withdrawal prior to disbursement. Funds deposited with the Company by wire transfer may be disbursed upon receipt. Funds deposited with the Company via cashier's checks drawn on a California based bank may be disbursed the next business day after the day of deposit. If funds are deposited with by other methods, recording or disbursement may be delayed. All escrow and sub-escrow funds received by the Company will be deposited with other funds in one or more non-interest bearing escrow accounts of the Company in a financial institution selected by the Company. The Company and/or its parent company may receive certain direct or indirect benefits from the financial institution by reason of the deposit of such funds or the maintenance of such accounts with the financial institution, and the Company shall have no obligation to account to the depositing party in any manner for the value of, or to pay such party, any benefit received by the Company and/or its parent Company. Those benefits may include, without limitation, credits allowed by such financial institution on loans to the Company and/or its parent company and earnings on investments made on the proceeds of such loans, accounting, reporting and other services and products of such financial institution. Such benefits shall be deemed additional compensation of the Company for its services in connection with the escrow or sub-escrow.

Lenders supplemental report

The above numbered report (including any supplements or amendments thereto) is hereby modified and/or supplemented in order to reflect the following additional items relating to the issuance of an American Land Title Association loan policy form as follows:

A. This report is preparatory to this issuance of an American Land Title Association loan policy of title insurance. This report discloses nothing, which would preclude the issuance of said American land title association loan policy of title insurance with endorsement no. 100 attached thereto.

B. The improvements on said land are designated as:

A commercial property known as

225 W 6th Street, in the City of Corona, County of Riverside, State of California.

C. Our search of the public records revealed conveyance(s) affecting said land recorded within 24 months of the date of this report are as follows:

None.

Attention

Please note that this preliminary report now has an extra copy of the legal description on a separate sheet of paper. There are no markings on the page. The idea is to provide you with a legal description that can be attached to other documents as needed. That legal description page immediately follows this page.

Thank you for your support of **Orange Coast Title Company**. We hope that this makes your job a little easier.

Exhibit "A"

Lots 7 through 12, inclusive, of Block 145 of the South Riverside Townsite, in the City of Corona, County of Riverside, State of California, as shown by map recorded in Book 9, Pages 6 and 8 of Maps, in the Office of the County Recorder of San Bernardino County, together with all that portion of the East-West unnamed alley (16 feet wide), as vacated and closed to public use by Resolution No. 76-70, recorded June 24, 1976 as Instrument No. 90734 and the Easterly 6 feet of Belle Avenue vacated and closed to public use by Resolution 76-81, recorded July 16, 1976 as Instrument No. 103437, both of Official Records.

CLTA Preliminary Report Form – Exhibit B (06-03-11)

CLTA STANDARD COVERAGE POLICY – 1990
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:
1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy. (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters: (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant; (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy; (c) resulting in no loss or damage to the insured claimant; (d) attaching or created subsequent to Date of Policy; or (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:
1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, which are not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (02/03/10)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:
1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning: a.building, b. zoning, c.land use d. improvements on the Land, e.land division; and ,f. environmental protection. This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks: a. that are created, allowed, or agreed to by You, whether or not they recorded in the Public Records; b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date; c. that result in no loss to You; or d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e, 25, 26, 27, or 28.
5. Failure to pay value for Your Title.
6. Lack of a right: a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and b. in streets, alleys, or waterways that touch the Land. This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:
• For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.
The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	**1 % of Policy Amount shown in Schedule A or $ 2,500 (whichever is less)**	**$ 10,000**
Covered Risk 18:	**1 % of Policy Amount shown in Schedule A or $ 5,000 (whichever is less)**	**$ 25,000**
Covered Risk 19:	**1 % of Policy Amount shown in Schedule A or $ 5,000 (whichever is less)**	**$ 25,000**
Covered Risk 21:	**1 % of Policy Amount shown in Schedule A or $ 2,500 (whichever is less)**	**$ 5,000**

ALTA RESIDENTIAL TITLE INSURANCE POLICY (6-1-87)
EXCLUSIONS

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:
1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning: * land use * improvements on the land * land division * environmental protection. This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date. This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.
2. The right to take the land by condemning it, unless: *a notice of exercising the right appears in the public records *on the Policy Date *the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking
3. Title Risks: *that are created, allowed, or agreed to by you *that are known to you, but not to us, on the Policy Date -- unless they appeared in the public records *that result in no loss to you *that first affect your title after the Policy Date -- this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
4. Failure to pay value for your title.
5. Lack of a right: *to any land outside the area specifically described and referred to in Item 3 of Schedule A OR *in streets, alleys, or waterways that touch your land. This exclusion does not limit the access coverage in Item 5 of Covered Title Risks.

2006 ALTA LOAN POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:
1. (a) Any law, ordinance or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement erected on the Land; (iii) the subdivision of land; or (iv) environmental protection; or the effect of any violation of these laws, ordinances or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims or other matters:(a)created, suffered, assumed or agreed to by the Insured Claimant; (b)not known to the Company, not recorded in the public records at Date of Policy, but known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy; (c) resulting in no loss or damage to the Insured Claimant; (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14);or(e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state in which the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is (a) a fraudulent conveyance or fraudulent transfer, or (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b):

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:
1.(a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2.Any facts, rights, interests or claims which are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3.Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4.Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5.(a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

2006 ALTA OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to: (i) the occupancy, use, or enjoyment of the Land; (ii) the character, dimensions, or location of any improvement erected on the Land; (iii) the subdivision of land; or (IV) environmental protection; or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5. (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters: (a) created, suffered, assumed, or agreed to by the Insured Claimant; (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;(c) resulting in no loss or damage to the Insured Claimant; (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is (a) a fraudulent conveyance or fraudulent transfer; or (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.
The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:
1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07-26-10)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys fees or expenses which arise by reason of:
1. (a) Any law, ordinance, permit, or governmental regulation (including but not limited to building and zoning) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the Land; (ii) the character, dimensions or location of any improvement erected on the Land; (iii) the subdivision of the land; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risks 5, 6, 13(c), 13(d), 14, and 16.(b) Any governmental police power. This Exclusion 1(b)does not modify or limit the coverage provided under Covered Risks 5, 6, 13(c), 13(b), 14, and 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims or other matters (a) created, suffered, assumed or agreed to by the Insured Claimant; (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;(c) resulting in no loss or damage to the Insured Claimant;(d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risks 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 26); or (e)resulting in loss or damage which would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of the Insured to comply with applicable doing-business laws of the state in which the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth in lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.

6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6..
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is (a) a fraudulent conveyance or fraudulent transfer, or (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.

Orange Coast Title Company
PRIVACY POLICY

We Are Committed to Safeguarding Customer Information
In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information – particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information that you provide to us. Therefore, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability
This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity.

Types of Information
Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means.
- Information we receive from providers of services to us, such as appraisers, appraisal management companies, real estate agents and brokers and insurance agencies (this may include the appraised value, purchase price and other details about the property that is the subject of your transaction with us).
- Information about your transactions with us, our Affiliated Companies, or others; and
- Information we receive from a consumer reporting agency.

Your California Rights (immediately following this Privacy Policy) or you may visit our website at https://www.titleadvantage.com/privacypolicy.htm or call toll-free at (866) 241-7373. Only applies to CA residents

Use of Information
We request information from you for our own legitimate business purposes and not for benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis.

Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security
We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

Other Important Information
We reserve the right to modify or supplement this Privacy Policy at any time. If our Privacy Policy changes, we will provide the new Privacy Policy before the new policy becomes effective.

Last Revision 12/26/2019
Effective on 1/01/2020

Your California Rights

If you are a California resident, you may have certain rights under California law, including but not limited to the California Consumer Privacy Act ("CCPA"). All phrases used herein shall have the same meaning as those phrases used under relevant California law, including but not limited to the CCPA.

Right to Know
You have the right to know:

- The categories of personal information we have collected about or from you;
- The categories of sources from which we collected your personal information;
- The business or commercial purpose for collecting or sharing your personal information;
- The categories of third parties with whom we have shared your personal information; and
- The specific pieces of your personal information we have collected.

Process to Submit a Request. To submit a verified request for this information you may visit our website at https://www.titleadvantage.com/privacypolicy.htm or call toll-free at (866) 241-7373. You may also designate an authorized agent to submit a request on your behalf by visiting our website https://www.titleadvantage.com/privacypolicy.htm or calling toll-free at (866) 241-7373 and then also submitting written proof of such authorization via e-mail to dataprivacy@octitle.com.

Verification Method. In order to ensure your personal information is not disclosed to unauthorized parties, and to protect against fraud, we will verify your identity before responding to your request. To verify your identity, we will generally match the identifying information provided in your request with the information we have on file about you. Depending on the sensitivity of the personal information requested, we may also utilize more stringent verification methods to verify your identity, including but not limited to requesting additional information from you and/or requiring you to sign a declaration under penalty of perjury.

Right of Deletion
You have a right to request that we delete the **personal information** we have collected from or about you.

Process to Submit a Request. To submit a verified request to delete you information you may visit our website at https://www.titleadvantage.com/privacypolicy.htm or call toll-free at (866) 241-7373. You may also designate an authorized agent to submit a request on your behalf by clicking here or calling toll-free at (866) 241-7373 and then also submitting written proof of such authorization via e-mail to dataprivacy@octitle.com.

Verification Method. In order to ensure we do not inadvertently delete your **personal information** based on a fraudulent request, we will verify your identity before we respond to your request. To verify your identity, we will generally match the identifying information provided in your request with the information we have on file about you. Depending on the sensitivity of the **personal information** requested to be deleted, we may also utilize more stringent verification methods to verify your identity, including but not limited to requesting additional information from you and/or requiring you to sign a declaration under penalty of perjury.

Right to Opt-Out
We do not sell your **personal information** to third parties, and do not plan to do so in the future.

Right of Non-Discrimination
You have a right to exercise your rights under the CCPA without suffering discrimination. Accordingly, OC Title & family of Companies will not discriminate against you in any way if you choose to exercise your rights under the CCPA.

California Minors
If you are a California resident under the age of 18, California Business and Professions Code § 22581 permits you to request and obtain removal of content or information you have publicly posted on any of our Applications or Websites. To make such a request, please send an email with a detailed description of the specific content or information to dataprivacy@octitle.com. Please be aware that such a request does not ensure complete or comprehensive removal of the content or information you have posted and there may be circumstances in which the law does not require or allow removal even if requested.

Collection Notice
The following is a list of the categories of **personal information** we may have collected about California residents in the twelve months preceding the date this Privacy Notice was last updated, including the business or commercial purpose for said collection, the

categories of sources from which we may have collected the **personal information**, and the categories of third parties with whom we may have shared the **personal information**:

Categories of Personal Information Collected

The categories of **personal information** we have collected include, but may not be limited to:

- real name
- Signature
- Alias
- SSN
- physical characteristics or description, including protected characteristics under federal or state law
- address
- telephone number
- passport number
- driver's license number
- state identification card number
- IP address
- policy number
- file number
- employment history
- bank account number
- credit card number
- debit card number
- financial account numbers
- commercial information
- professional or employment information

Categories of Sources

Categories of sources from which we've collected **personal information** include, but may not be limited to:

- the consumer directly
- public records
- governmental entities
- non-affiliated third parties
- affiliated third parties

Business Purpose for Collection

The business purposes for which we've collected **personal information** include, but may not be limited to:

- completing a transaction for our Products
- verifying eligibility for employment
- facilitating employment
- performing services on behalf of affiliated and non-affiliated third parties
- protecting against malicious, deceptive, fraudulent, or illegal activity

Categories of Third Parties Shared

The categories of third parties with whom we've shared **personal information** include, but may not be limited to:

- service providers
- government entities
- operating systems and platforms
- non-affiliated third parties
- affiliated third parties

Sale Notice

We have not sold the **personal information** of California residents to any third party in the twelve months preceding the date this Privacy Notice was last updated, and we have no plans to sell such information in the future. We also do not, and will not sell the **personal information** of minors under sixteen years of age without affirmative authorization.

Disclosure Notice

The following is a list of the categories of **personal information** of California residents we may have disclosed for a business purpose in the twelve months preceding the date this Privacy Notice was last updated.

- real name
- Signature
- Alias
- SSN
- physical characteristics or description, including protected characteristics under federal or state law
- telephone number
- passport number
- driver's license number
- state identification card number
- IP address
- policy number
- file number
- bank account number
- credit card number
- debit card number
- financial account numbers
- commercial information
- professional or employment information

- address
- employment history

OWNER'S AFFIDAVIT

State of California
County of _____ } S.S.

Order No.: 140-2279111-32

The undersigned, _____, (owner's name) being first duly sworn, depose and say as follows:

1. That the undersigned is/are the owner(s) of certain real property situated in the City of Corona, County of Riverside and State of California, commonly known as 225 W 6th Street and more particularly described in Schedule "A" attached hereto (the "Property"):

2. That within the last ninety (90) days, including the date hereof, no person, firm or corporation has furnished any labor, services or materials in connection with the construction or repair of any buildings, fixtures or improvements on the Property, EXCEPT (if work has been performed or materials furnished within the last (90) days, please explain fully and state whether payment for the same has been made in full): _____.

3. That there are no present tenants, lessees or other parties in possession or who have a right to possession of said Property, EXCEPT: (if none, state "None") _____.

4. That the undersigned has/have no knowledge of any taxes or special assessments which are not shown as existing liens by the public records other than as follows: _____.

5. That the taxes for Installment ___ of fiscal year _____ are paid. Installment ___ of fiscal year _____ is not yet due.

6. That the undersigned has/have no knowledge of, nor has/have the undersigned created, any violations of any covenants, restrictions, agreements, conditions or zoning ordinances affecting the Property.

7. That Property is free of all liens, taxes, encumbrances and claims of every kind, nature and description whatsoever, except for the following mortgages or deeds of trust;
_____ and except for real estate and personal property taxes for Installment ___ of fiscal year _____ and subsequent years.

8. That there are no mechanic's, materialmen's or laborer's liens against the above described Property, nor is any party entitled to assert any mechanic's, materialmen's or laborer's liens against the Property.

9. That there are no unrecorded leases or agreements affecting the Property, other than the Agreement of Sale between the undersigned and _____ as purchasers of the Property dated _____.

10. That there are no open, unexercised options to purchase or rights of first refusal to purchase the Property.

11. That no judgment or decree has been entered in any court of this State or the United States against the undersigned and which remain unsatisfied, EXCEPT _____.

12. The undersigned further state(s) that he/she/they are each familiar with the nature of an oath; and with the penalties under the laws of the state for making false statements in any instruments of this nature. The undersigned further certify(ies) that they have read, this affidavit, or have had it read to them, and understand its context.

13. That I/WE have made this Affidavit for the purpose of inducing Orange Coast Title Company to issue one or more policy(ies) of title insurance insuring interests in the Property, and that said title company is relying on the statements set forth in this Affidavit in issuing said policies, free and harmless from and against any and all actions, causes, of action, loss, cost, expense, or damages that may be brought against or suffered or incurred by Orange Coast Title Company or its underwriters, in relying

on the truth and accuracy of the statements contained herein.

DECLARATION OF OCCUPANCY

(Loan Transaction)

The undersigned, _____, (owner's name) depose(s) and say(s) as follows:

1. The undersigned is/are the owner(s) of certain real property situated in the City of Corona, County of Riverside and State of California, commonly known as 225 W 6th Street, herein referred to as "Property":

2. The undersigned is/are obtaining a loan from _____ to be secured by a Deed of Trust against the Property, which is the subject of this transaction.

3. The undersigned currently occupy the Property as the undersigned's principal address, and intend to continue to occupy the same as the undersigned's principal residence following the close of this transaction.

4. The undersigned understand(s) that Orange Coast Title Company is relying on this information in calculating the recording fees for all real estate instruments, papers, and notices recorded in connection with this transaction in accordance with *California Government Code §27388.1(a)(2)*.

5. The undersigned agree(s) to indemnify and hold Orange Coast Title Company harmless from and against, and to pay any additional recording fees and/or penalties arising out of, or in connection with, the inaccuracy of the information set forth herein.

The undersigned declare(s) under penalty of perjury under the laws of the State of California that the foregoing is true and correct, and that this Declaration was executed on _____, at _____, _____.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1921 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by EEC were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien and AUL Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Subject: Public Records Request

EXTERNAL:

Hi there,

I am completing a Phase I ESA for the property located at 225 W. 6th Street in Corona, California 92882. I would like to see if the RWQCB has any records on file for this property. If so, I would like to arrange to obtain copies of the records. Thank you in advance for your help.

Sincerely,

Vanessa Layne (Diep), PG, QSD

Information Management

County of Riverside

DEPARTMENT OF ENVIRONMENTAL HEALTH

KEITH JONES, DIRECTOR

October 5, 2021

Riverside County Hazardous Materials has reopened to limited in-person services. We will be implementing the best practices to serve our customers in person while preventing the transmission and spread of COVID-19.

Due to the ongoing COVID-19 national state of emergency, and Orders by the Riverside County Health Officer, the Riverside County Department of Environmental Health has continued to request that our employees work remotely to support you.

Records Request services will continue to be available but please be patient with us and understand that staff is limited.

Responses will be provided **temporarily via email** and will resume to respond via US Mail once the pandemic has rectified.

During this time records will be provided in five different ways after fees are paid.

1) In office appointments for viewing of larger files only
2) Email – Only small files **no larger than ¼ inch qualify**
3) US Mail – files that are appropriately sized for mailing will qualify – **Additional Copy and Reproduction Fees will apply**
4) USPS / FedEx – larger files that are unable to be mailed via US Mail will be shipped at the requestor's expense – **Additional Copy and Reproduction Fees will apply**
5) Pick Up – By appointment only – **Additional Copy and Reproduction Fees will apply**

For questions please call (951) 358-5055 or visit our website for information www.rivcoeh.org

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS list

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 07/29/2021 has revealed that there is 1 SEMS site within approximately 0.5 miles of the target property.

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/22/2021 has revealed that there are 3 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/22/2021 has revealed that there are 5 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 04/23/2021 has revealed that there are 13 ENVIROSTOR sites within approximately 1 mile of the target property.

Local Lists of Hazardous waste / Contaminated Sites

CERS HAZ WASTE: List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, and RCRA LQ HW Generator programs.

A review of the CERS HAZ WASTE list, as provided by EDR, and dated 04/19/2021 has revealed that there are 11 CERS HAZ WASTE sites within approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 2 SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/22/2021 has revealed that there are 13 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

ABANDONED MINES: An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

A review of the ABANDONED MINES list, as provided by EDR, and dated 06/15/2021 has revealed that there is 1 ABANDONED MINES site within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 13 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Case Worker:	SCB
RB Case Number:	083303259T
Local Agency:	RIVERSIDE COUNTY LOP
File Location:	Local Agency
Local Case Number:	9814582
Potential Media Affect:	Aquifer used for drinking water supply, Soil
Potential Contaminants of Concern:	Gasoline
Site History:	Data prior to 2005 not uploaded to GeoTracker. See case file. Assessment - September 1998 Two 10,000 gal gasoline and one 10,000 gal diesel USTs removed. Impacted soil was detected under the USTs and piping with maximum concentrations of: 12,729 ppm TPHg, 347 ppm TPHd, 120.6 ppm Benzene, 783.422 ppm Toluene, 276 ppm Ethylbenzene, 751.99 ppm Xylenes, and 903.5 ppm MTBE. May 2000 to October 2002 Six soil borings were completed and three multi-completion vapor extraction/groundwater monitoring wells, three vapor extraction wells and one vapor probe were installed. Highest soil concentrations were located south of the USTs: 8400 ppm TPHg (MW-1-55 ft), 65 ppm B (VW-1-55 ft), 310 ppm T (MW-1-55 ft), 150 ppm E (VW-1-55 ft), 590 ppm X (MW-1-55 ft), 100 ppm MTBE (VW-1-40 ft). Remediation October 1998 277.57 tons of impacted soils were excavated and removed from the site. January 2001 A soil vapor extraction (SVE) pilot test was completed. The shallow soils (34 to 54 feet below ground surface (bgs)) had a radius of influence of 10 feet and the deeper soils (60 to 80 ft bgs) had a radius of influence of 40 ft. Maximum vapor concentrations included: 20,070 ppmV TPHg (deep), 228 ppmV B (deep), 111 ppmV T (deep), 11.5 ppmV E (deep), 30 ppmV X (shallow), and 1,067 ppmV MTBE (shallow). Mass removal rates for TPHg were: 57.54 lb/day (shallow) and 61.32 lb/day (deep). April 2002 to September 2003 SVE system was operated continuously using up to 12 SVE wells. Initial vapor concentrations: 5644 ppmV TPHg, 110 ppmV B, 120 ppmV T, 13.5 ppmV E, 42.8 ppmV X, and 89 ppmV MTBE. September 2003 to May 2007 Discontinuous SVE operations were conducted including various system cycling and rebound testing events. Total number of days of SVE operation: 1017 days Total mass recovered: 14954 lb TPHg, 24 lb B, 624 lb T, 210 lb E, 1050 lb X, and 16.83 lb MTBE. Groundwater Six groundwater (GW) monitoring wells were installed at this site. Depth to GW has ranged ~110 ft bgs to ~128 ft bgs and the flow direction has ranged from west to east, but predominantly northeast to northwest. GW impacts were detected in MW-1 during the first two sampling events at maximum concentrations of 2412 ppb TPHg, 187 ppb B, 226 ppb T, 25 ppb E, 243 ppb X, and 426 ppb MTBE. This well was sampled two additional times prior to going dry and all constituents were below the detection limits for both sampling events except 20 ppb MTBE. For seven quarters, wells MW-2 and MW-3 were ND for all constituents testing. Since October 2002, the wells have been dry and unable to be sampled. Wells MW-4, MW-5 and MW-6 were installed in October 2002 and have been sampled quarterly since this time. There have not been any detections in any of these three wells since sampling was initiated. Verification June 2007 Formal SVE rebound testing was conducted. The highest individual well vapor concentrations were: 175 ppmV TPHg, ND B, 8.5 ppmV T, 3.53 ppmV E, 15.3 ppmV X, and ND MTBE. Final mass removal rates for the influent vapor stream were: 5.75 lb/day TPHg, and 0 to <0.6 lb/day BTXE & MTBE. July 2007 Four confirmation soil borings were drilled to verify subsurface conditions. Three were drilled to 80 ft bgs and one was drilled to 125 ft bgs. Impacted soils were detected between 50 and 60 ft bgs in two of the borings (CB-2 and CB-3). Maximum concentrations

PALM SPRINGS OIL #6 (Continued) **1000294437**

included: 2230 ppm TPHg (CB-2-55'), ND B, 445 ppm T (CB-2-55'), 201 ppm E (CB-2-55'), 1550 ppm X (CB-2-55'), ND MTBE. August and September 2007 - SVE operated an additional 33 days and removed 277 lbs TPHg, 6.83 lb T, 3.54 lb E, 15.69 lb X were recovered. (No Benzene or MTBE was recovered during this time.) Subsurface Soil types: The uppermost unit from surface to 180 ft bgs is high clay content silts with lesser amounts of fine- to coarse-grained sand. This unit grades laterally and vertically into relatively clay-free sandand silty sand between 60 and 95 ft bgs. The second unit between approximately 95 and 130 ft bgs consists predominantly of sand and gravel with some fines. Other information: UST system currently installed and operating at the site. The piping and dispensers were replaced in June 2006 and the leak has been stopped. The site has been adequately characterized. Residual impacts remain at the site between 50 and 60 ft bgs in the soils south of the USTs (CB-2 and CB-3). The consultant concludes that the impacts are limited to a lens of low permeability silty clay within a larger sand unit and do not pose a threat to groundwater. No water wells, surface waters, or other sensitive receptors are likely to be impacted. RCDEH issued a letter requiring proper destruction of all existing wells and a site closure letter on 8/18/10. Documentation of well destructions to be submitted by 11/30/2010. As of 06/07/2012 - documentation for destruction of the wells has not been submitted to Riverside County Environmental Health. The County still requires the wells be abandoned propertly and documentation sent to our office. All monitoring and remediation wells destroyed in Aug 2014. RCDHE issued final no further action letter December 19 2014.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval General Type:	Compliance Evaluation Inspection
Eval Date:	08-31-2018
Violations Found:	Yes
Eval Type:	Routine done by local agency
Eval Notes:	- Monitoring certification was also being done on this date. It was informed that the company conducting the monitoring certification were going to supply the drums to store the hazardous waste from the certification. - During the inspection, inspector was unable to view the drums in the back shed area (inaccessible). Manager stated facility facility had not generated hazardous waste recently. Manager was instructed to provide access to hazardous waste drums so that it is easily accessible.

Violation Date:	09-20-2018
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 11/07/2018. OBSERVATION: Observed a 30 gallon drum (paint booth area) holding solvent waste without an accumulation start date. Owner stated that the hazardous waste had been there for longer than 180 days. CORRECTIVE ACTION: Owner/operator shall ensure all hazardous wastes are transported off site within 180 days of the accumulation start date. Owner/operator shall have the solvent waste properly hauled off site by a registered hazardous waste transporter.

Site ID: 151388
Site Name: SC Auto Collision & Repair
Violation Date: 02-10-2015
Citation: 22 CCR 16 66266.130 - California Code of Regulations, Title 22, Chapter 16, Section(s) 66266.130
Violation Description: Failure to properly handle, manage, label, and recycle used oil and fuel filters.
Violation Notes: Returned to compliance on 04/21/2015.
Violation Division: Riverside County Department of Env Health
Violation Program: HW
Violation Source: CERS

Site ID: 151388
Site Name: SC Auto Collision & Repair
Violation Date: 09-20-2018
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes: Returned to compliance on 11/07/2018. OBSERVATION: Observed 55 gallon metal drum holding used fuel filters without cover/lid in place. CORRECTIVE ACTION: Owner/operator shall maintain all hazardous waste containers closed when not adding/removing hazardous waste.
Violation Division: Riverside County Department of Env Health
Violation Program: HW
Violation Source: CERS

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Case Worker:	YR
RB Case Number:	Not reported
Local Agency:	RIVERSIDE COUNTY LOP
File Location:	Local Agency Warehouse
Local Case Number:	200828072
Potential Media Affect:	Soil
Potential Contaminants of Concern:	Gasoline
Site History:	Release Information: In October 2008, soil samples were collected during dispenser upgrade activities. Twenty-one (21) soil samples were collected from beneath the dispensers and piping at a depth of approximately four feet below ground surface (bgs). TPHg was detected in two soil samples at a maximum concentration of 1.5 ppm. MTBE was detected in 17 of the 21 soil samples at a maximum concentration of 0.033ppm. BTEX and other fuel oxygenates were not detected in any of the soil samples. Total lead concentrations ranged from 9.5 to 52 ppm. Based on analytical results an Unauthorized Release Report (URR) was submitted on October 21, 2008. RCDEH entered the site into LOP on December 29, 2009 for further assessment. Assessment/Verification: Five soil borings (B-5 through B-9) were advanced on April 17 to 24, 2009, to depths of 40.5 to 41 feet bgs. One soil boring was advanced adjacent to each of the dispenser islands, and boring B-9 was advanced at the location of the previous UST locations. Boring B-7 was continuously cored for detailed logging. TPHg was detected in the 5 foot soil samples from soil borings B-6 and B-9 at concentrations of 0.89 ppm and 26 ppm, respectively. TPHg was not detected in any other soil sample. BTEX and fuel oxygenates were not detected in any soil samples, except MTBE was detected in boring B-9 at 5 feet at a concentration of 0.0055 ppm. Other VOCs were not detected in any of the soil samples. Analysis of the 5 foot soil sample from B-9 for total lead showed a concentration of 14 ppm.

Local Agency:	RIVERSIDE COUNTY LOP
File Location:	All Files are on GeoTracker or in the Local Agency Database
Local Case Number:	Not reported
Potential Media Affect:	Soil
Potential Contaminants of Concern:	Diesel
Site History:	Fieldstone Communities, the developer of the subject site, discovered a concrete tank when they developed lot 41. The UST extended the length of the property and extended beyond the property to the north onto Radcliffe Circle and to the south onto Taber Street. The UST was apparently used to store fuel for the smudge pots in the former orange groves. The UST was found to contain debris and diesel affected soil. The contents of the UST within the Lot 41 property boundary were removed in December 2001. Two soil samples were collected from the stockpile of the affected soil. Total petroleum hydrocarbons (TPH)-diesel was detected at a concentration up to 6040 mg/kg. The concrete walls of the UST were removed to a depth of two to four feet below grade within the limits of Lot 41. The excavation

PRIVATE RESIDENCE (Continued) **S110654960**

work was not extended into the street or the easement between Lot 41 and Radcliffe Circle and Lot 41 and Taber Street. Elevated concentrations of petroleum hydrocarbons were detected in the soil and debris within the portion of the UST that exists beyond the property. TPH-diesel was detected at a concentration as high as 22,900 mg/kg. Soil samples were also collected through holes punched through the concrete floor of the UST. TPH-diesel was only detected at a moderate concentration in one sample near the northern end of the property. In response to these findings, Fieldstone Communities requested closure of remedial activities on the lot 41 property and Fieldstone stated that any further remedial work on the remaining UST and affected soil that exists on Radcliffe Avenue and the adjacent easement is the responsibility of the City of Corona. We did not grant site closure because the extent of the contamination that exists encased in the tanks beyond the property line and the outside of the UST at the north end of the property were not assessed. Furthermore, we have not established the responsible party to complete the abandonment of the UST and to conduct the continued assessment and remediation of the affected soil. We are requesting that you submit documentation regarding the City of Coronas ownership of the easement adjacent to the subject property, the City of Coronas responsibility to complete proper abandonment of the former UST and conduct further assessment of the affected soil, and any information on agreements between Fieldstone and the City of Corona regarding ownership of the subject property and the responsibility for the continued investigation and remediation of the releases from the UST. The further assessment and remediation of the residual petroleum that still remains in the UST under the easement to lot 41 and under Radcliffe Circle is necessary to protect the underlying groundwater resources, protect human health, reduce potential public nuisance, and properly abandon and close the remaining portion of the UST. Furthermore, the lateral and vertical extent of the petroleum hydrocarbon-affected soil detected outside the UST must be adequately assessed to determine the potential threat to the underlying groundwater resources and public health.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-27-2018
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: - Facility generates hazardous waste labels electronically - G. Arellano stated scanners are used to determine if waste is hazardous. If the item is a hazardous waste, the scanner will notify which hazardous waste tote it belongs in. - Hazardous waste daily inspections were available during time of inspection - Facility has recently started transitioning employee training to an online course - Observed the manifests from the last 3 years. However, waste manifests were disorganized and difficult to find in the binder. The assistant manager was instructed to organize waste manifests according to years and maintain the last 3 years in the binder.
Eval Division: Riverside County Department of Env Health
Eval Program: HW

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 07/29/2021

Next Scheduled EDR Contact: 10/11/2021
Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 07/29/2021

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 02/22/2021

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Data Release Frequency: Quarterly

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 06/10/2021

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2019

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

South Map:	5636469 CORONA SOUTH, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

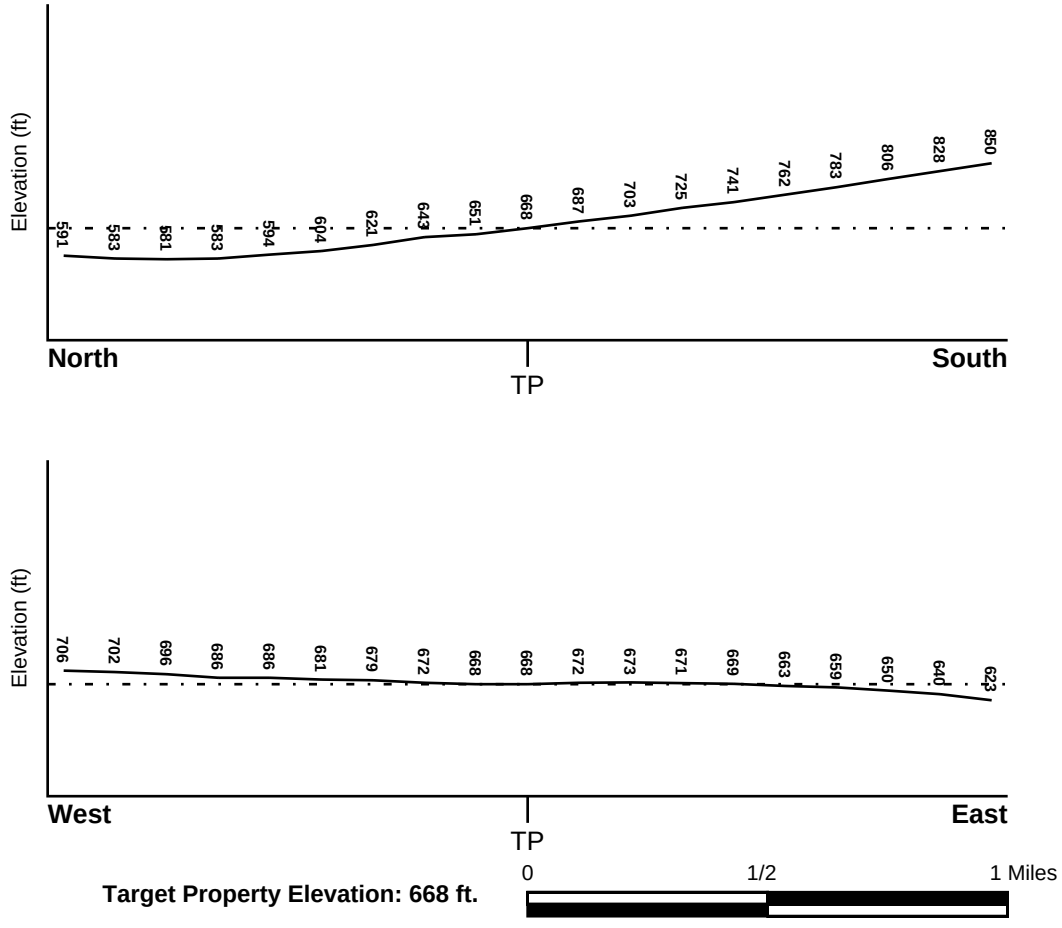
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General North

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06065C0689G	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
CORONA NORTH	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW

7G	1/4 - 1/2 Mile East	Not Reported

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: GARRETSON

Soil Surface Texture: gravelly very fine sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	9 inches	gravelly very fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 6.1
2	9 inches	53 inches	gravelly loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 6.1
3	53 inches	72 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 6.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

LAURA HOLDER

Project Manager

Laura, project manager at EEC, has 15 years of experience in the environmental consulting industry. Laura specializes in conducting and managing due diligence and information discovery through in-depth research of client and regulatory agency records, and reports her findings in various types of technical reports, which include Phase I and II assessment reports, and site screening assessments. As a task manager, Laura is responsible for project scheduling, completion of deliverables, project review, and client communications during all phases of work. Laura earned a Bachelor of Arts in Geography from Sonoma State University in California.

EXPERIENCE

Project Manager, Phase I Environmental Site Assessments and Due Diligence Reports, Various Clients | Nationwide

- Conducted approximately 100 Phase I ESAs for private companies and public agencies on various types of properties including large industrial facilities, transportation corridors, office buildings, gasoline filling/service stations, automotive dealers, power plants, a petroleum tank farm, oil refinery, bulk storage facility, and U.S. Army Installations inlcuding Aberdeen Proving Ground, Maryland and Fort Sill, Oklahoma.
- Completed Environmental Condition of Property (ECP) reports for U.S. Army Installations including Fort Riley, Kansas and Fort Sill, Oklahoma.
- Conducted research to locate potential environmental concerns on the subject property and surrounding sites.
- Analyzed historical aerial photographs, topographic maps, Sanborn maps, and environmental data reports.
- Conducted historical permit and document review at multiple city and regional agency offices to determine past land use.
- Authored Phase I ESA reports to be used by the client in property transactions.
- Conducted approximately 30 Site Screening Assessments for potential leases at various commercial and industrial properties.

Litigation Support Research, Superfund Sites and Regional Groundwater Plumes, Various Clients | So. CA

- Conducted historical regulatory file reviews at multiple city, county, regional, state, and federal agencies to identify past operations, chemical use, and handling practices at hundreds of sites.
- Conducted research of historical newspapers and archived special collections at local libraries.
- Conducted reviews of environmental reports such as groundwater monitoring reports, Phase I and Phase II ESAs, 5-Year Reviews, Records of Decision, and indoor air sampling reports.
- Analyzed groundwater, soil, soil vapor, and indoor air analytical data.
- Prepared summary analysis documents to determine the likelihood that a facility contributed to subsurface contamination based on factors including but not limited to history of operations, chemical usage, handling practices, and the presence of subsurface conduits.

EXPERIENCE (CON.)

Environmental Consultant: Due Diligence, Proposed Telecommunications Facilities, Verizon Wireless and Proposed Pharmacy Locations, Walgreens | NV, AZ, TX, CA

- Conducted over 200 Phase I ESAs for proposed telecommunications and pharmacy locations in Nevada, Arizona, Texas, and throughout California.
- Conducted research to locate potential environmental concerns on the subject property and surrounding sites.
- Analyzed historical aerial photographs, topographic maps, Sanborn maps, and environmental data reports.
- Conducted historical permit and document review at multiple city and regional agency offices to determine past land use.
- Authored Phase I ESA reports to be used by the client in property transactions.
- Conducted Phase II ESAs to assess former agricultural use, former dry cleaners, potential lead soil contamination, and former gasoline stations identified during the Phase I ESAs.

Environmental Consultant: NEPA, Proposed Telecommunications Facilities, Verizon Wireless | CA

- Completed over 100 NEPA Screening Reports throughout California.
- Consulted with Native Americans and local and State agencies to identify potential project impacts.
- Coordinated with a biologist to prepare natural resource assessments to identify potential impacts to sensitive species.
- Identified if the subject property was located in a floodplain, wetland, wildlife refuge, or wildlife preserve.
- Coordinated with archaeologist and architectural historian to identify potential impacts to historic properties and cultural resources.
- Authored NEPA reports to document research conducted, potential project impacts, and need for additional assessment.

Environmental Consultant, Noise Exposure Assessment at San Onofre Nuclear Generating Station (SONGS) | San Onofre, CA

- Obtained security clearance and site specific training for SONGS.
- Measured noise levels and workers' noise exposure using personal noise dosimeters and sound level meters throughout all areas of the SONGS facility, including reactor buildings, hazardous waste storage areas, and nearby Camp Pendleton's rifle training facility used by SONGS security staff.
- Maintained hourly and daily records and logs of SONGS employee activities and noise level exposures.

Environmental Consultant, Telecommunications Switching Stations and Office Headquarters, Verizon Wireless | So. CA

- Conducted site inspections to identify hazardous material quantities, locations, storage methods, and safety precautions.
- Completed required regulatory forms such as chemical inventories, maps, and business emergency contingency plans.
- Provided forms to client for submittal to the applicable State of California Certified Unified Program Agency.

EMILY A. VAVRICKA

Project Scientist

Emily is a project scientist with more than 16 years of environmental consulting and litigation support experience. The majority of her career has focused on litigation cases involving environmental liability, cost recovery and contribution actions, and environmental forensic investigations involving soil and groundwater contamination issues of various contaminants, such as chlorinated solvents and perchlorate. Emily specializes in the use of environmental forensic techniques to identify potentially responsible parties and determine the source, fate, and transport of contaminants in soil and groundwater. She is skilled in forensic review, analysis, and interpretation of scientific data; historical document research and analysis; aerial photography interpretation; statistical analysis; and geospatial analysis using geographic information systems (GIS).

Emily has assisted with the development of expert witness reports, modeling efforts, and trial preparation. She has worked on numerous environmental litigation cases across the United States that have included several cases involving Superfund Sites, such as the B.F. Goodrich Site in Rialto, California, and the Petro-Chemical Systems, Inc. (a.k.a. Turtle Bayou) site in Liberty County, Texas. She also has experience with other sites involving bulk chemical distribution facilities (chlorinated solvents), oil refineries and petro-chemical facilities (petroleum hydrocarbons, PAHs, PCBs, metals), former defense contractor sites (PCE, TCE, perchlorate), dry-cleaner sites (PCE, Stoddard solvent), chrome-plating facilities (hexavalent chromium), and pyrotechnic manufacturing sites (perchlorate).

Emily holds a Master of Science in Environmental Science / Hydrogeology from California State University, Fullerton, and a Bachelor of Science in Environmental Science from University of California, Riverside. She maintains OSHA 40-hour HAZWOPER certification.

EXPERIENCE

Project Manager, Remedial Site Investigation | Avalon, CA

- Provided historical research and technical support for three parties in response to a Department of Toxic Substances (DTSC) Order regarding the Avalon K-12 School Property and adjacent City of Avalon Warehouse Property in Avalon, California.
- Provided historical and forensic research to determine the historical use and operations at the site and adjacent properties, which included a Manufactured Gas Plant.
- Assisted with the preparation of a site conceptual model and remedial investigation workplan that was submitted to the DTSC.
- Assisted with remedial investigation field activities which included the drilling of approximately 80 soil boring locations to determine the extent of contaminants of concern which included lead, arsenic, PAHs, dioxins, cyanide, and VOCs.

Project Scientist, Litigation Support, Perchlorate Site | Pomona, CA

- Provided litigation support and assistance to defense experts in order to evaluate the distribution of perchlorate contamination in groundwater in and around the City of Pomona's Wellfield, located in the Chino Groundwater Basin, and provide opinions as to the source of perchlorate contamination.
- Conducted a comprehensive review and evaluation of historical documentation, literature, and reports in order to identify potential sources of perchlorate contamination, including historical fertilizer use, specifically Chilean nitrate fertilizer; various U.S. Department of Defense and industrial sources, municipal sources, including the Colorado River; and

potentially naturally occurring sources.

Litigation Support, Perchlorate Site| Southern California, CA

- Provided litigation support and assistance to defense experts in order to evaluate the distribution of perchlorate contamination in groundwater in and around a Southern California Wellfield, and provide opinions as to the source of perchlorate contamination.
- Analysis included a comprehensive review and evaluation of historical documentation, literature, and reports in order to identify potential sources of perchlorate contamination, including historical fertilizer use, specifically Chilean nitrate fertilizer; various Department of Defense and industrial sources, municipal sources, including the Colorado River; and potentially naturally occurring sources.
- A comprehensive database / GIS system was developed which aided in the development of trial graphics for court.

Senior Environmental Scientist, Natural Resource Damages Claims, Private Law Firm | NJ

- Senior environmental scientist in the Review of hundreds of sites to establish the validity of potential groundwater natural resource damage (NRD) claims for the State of New Jersey
- Provided technical review of historical site assessment documents and environmental reports in order to identify pertinent damage calculation information; analysis and compilation of data into a GIS project; implementation of a three-tiered QA/QC process for each potential site; and estimation of potential NRD claims utilizing groundwater injury calculations.

Senior Environmental Science, Forensic Evaluation, Private Law Firm | NJ

- Senior environmental scientist for a historical site evaluation and forensic analytical review of petroleum hydrocarbons, VOCs, and heavy metals in soil and groundwater at the ExxonMobil Bayway and Bayonne Refineries in Linden and Bayonne, New Jersey.
- Reviewed historical environmental documents and technical reports to determine the validity of potential groundwater natural resource damage claims, evaluate historical operations and chemical usage, and determine the extent of hazardous substances in soil and groundwater.
- Assisted with the development of opinions as to the extent of contamination and provided recommendations for soil and groundwater restoration.

Senior Scientist, Rialto-Colton Groundwater Plume, Litigation Support Superfund Site, City of Colton | Colton, CA

- Senior environmental scientist for litigation support involving PCE and TCE contamination of a drinking water aquifer and municipal supply wells in San Bernardino County, California.
- Provided technical review and analysis of potentially responsible parties (PRPs) to determine liability, analysis of the fate and transport of PCE and TCE in soil and groundwater, and an evaluation of remedial alternatives.
- Subsurface drilling and sampling was performed to characterize and assist in efforts to define the lateral and vertical extent of PCE and TCE in soil and groundwater.
- Responsible for the review and analysis of technical reports and environmental data to support and provide opinions in ongoing litigation activities.
- Assisted in the development of a preliminary assessment, site inspection report, and public participation plan in compliance with the National Contingency Plan pursuant to CERCLA.

Litigation Support, Superfund Site | Rialto/Colton, CA

- Senior environmental scientist for litigation support involving perchlorate and TCE contamination of a drinking water aquifer and municipal supply wells in the Rialto/Colton area, California.
- Provided technical review and analysis of potentially responsible parties (PRPs) to determine liability, analysis of the fate and transport of perchlorate and TCE in soil and groundwater, and an evaluation of remedial alternatives.
- Conducted subsurface drilling and installed two deep multi-port groundwater monitoring wells and performed soil and groundwater sampling to characterize and assist in efforts to define the lateral and vertical extent of perchlorate and TCE in soil and groundwater.
- Responsible for the review and analysis of technical reports and environmental data to support and provide opinions in ongoing litigation activities.
- Assisted in the development of a preliminary assessment, site inspection report, and public participation plan in compliance with the National Contingency Plan pursuant to CERCLA.

Senior Environmental Scientist, Litigation Support, Confidential School Site | Los Angeles, CA

- Senior environmental scientist for litigation support involving a multi-parcel site with soil and groundwater contamination from petroleum hydrocarbons, chlorinated solvents, PAHs, PCBs, pesticides, and metals, including arsenic and hexavalent chromium.
- Provided technical review and analysis of contaminants in soil and groundwater and historical operations in order to identify PRPs and determine liability.
- Efforts were conducted to assist the client in recovering costs for remediation of hazardous substances in soil and groundwater under the Hazardous Substances Account Act (California's CERCLA-equivalent statute).

Senior Environmental Scientist, PCE Site Assessment / Litigation Support, Private Law Firm | MT

- Senior environmental scientist for PCE historical site assessment/ litigation support at a site in Montana.
- Included a historical site evaluation of PCE contamination in soil and groundwater at a bulk chemical distribution facility.
- Employed environmental forensic techniques and managed the creation of a GIS project to assist with the investigation of the fate and transport of a PCE release to soil and groundwater.
- Assisted in the preparation of an expert report to support opinions as to the liability of PRPs, the volume and extent of contamination, and the age and time of the releases.

ES EXECUTIVE SUMMARY

Northgate Gonzalez Real Estate, LLC (NGRE) retained EEC Environmental (EEC) to conduct a Phase I Environmental Site Assessment (ESA) at the residential properties and vacant lot located at 410 S. Main Street, 323 S. Belle Avenue, and 332 S. Washburn Avenue in Corona, Riverside County, California (subject property). The objective of the Phase I ESA is to assess the environmental condition of the subject property and identify *recognized environmental conditions* (RECs), as defined by the American Society for Testing and Materials (ASTM), in connection with the subject property. This Phase I ESA in being conducted in association with a real estate transaction.

The assessment was conducted in accordance with the U.S. Environmental Protection Agency (USEPA) Standards and Practices for All Appropriate Inquiries (40 CFR 312); ASTM Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation E1527-13); and EEC's Standard Limitations. In addition, the Phase I ESA includes all the appropriate inquiries to support the innocent landowner defense pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

The subject property is located east of the intersection of S. Belle Avenue and W. 4th Street in a commercial and residential land use setting in Corona, California (Figure 1, *Site Location Map*; Figure 2, *Site Vicinity Map*). The approximately 1.31-acre subject property consists of four parcels identified as Assessor's Parcel Numbers (APNs) 117-103-026, 117-103-027, 117-142-016, and 117-142-017. The north portion of the subject property is developed with three single-family residences and a gravel lot. The remainder of the subject property consists of a vacant lot with concrete building pads from former onsite buildings and an associated asphalt-paved parking lot. A paved road (4th Street) extends east to west between the residences and vacant lot. This road turns 90 degrees to the north at the east portion of the subject property. The north/south-trending portion of this road is named Washburn Avenue.

The subject property was developed with single-family residences and associated buildings from at least 1895 to the 1930s. A vacant building, carpenter shop, and blacksmith shop were also located on the subject property during this time period. In the 1930s, the south portion of the subject property was developed with a machine shop. A roofing company was developed next to the machine shop in the 1940s. A new residence was developed on the north portion of the subject property in the 1950s. The south portion of the subject property continued to be used as a machine shop from the 1950s to the early 1990s. Other metalworking companies operated at this portion of the subject property during this time frame. One of the residences on the north portion of the subject property was demolished and replaced by a gravel lot in the 1990s. From the mid-1990s to 2000s, the buildings on the south portion of the subject property were occupied by a sign and lighting company, carpet shop, and drapery and upholstery shop. The buildings on the south portion of the subject property were demolished in 2013 and only building pads remain. The north portion of the subject property remains developed with single-family residences.

ES.1 Findings

Based on site observations and information gathered, the Phase I ESA revealed the following in connection with the subject property:

- Depth to groundwater is expected to be between 125 and 130 feet below ground surface (bgs) and the groundwater flow direction is expected to be north, following topography.

- Based on a review of aerial photographs, city directories, building permits, and fire insurance maps, the south portion of the subject property was previously developed with industrial buildings that were occupied by a machine shop and other metalworking companies from the 1930s to early 1990s. Based on the nature of operations, the former occupants likely used hazardous substances including oils, lubricants, and solvents and generated scrap metal shavings and dust. Additionally, a rectangular-shaped cut was observed in the concrete in the center of one of the associated building pads that appeared similar to a former pit, clarifier, or drain. Information was not available related to the handling practices of hazardous materials or hazardous waste disposal practices. Based on the potential for an undocumented release from the former machine shop and metalworking facilities, the former use is considered to be a REC and a potential vapor encroachment condition (VEC).

- Due to the date of the building construction of the existing residences (1920s and 1950s) and former industrial buildings (1930s to 1940s), there is a potential that asbestos-containing materials (ACMs) and lead-based paint (LBP) exist at the subject property, in the existing residential buildings and in the remnant building materials (tile, paint, and mastic) on the former industrial building pads. However, only a complete, intrusive ACM and LBP sampling survey can definitively determine the presence of ACMs and LBP.

- Based on the history of use with various structures and businesses, used for residential, commercial, and industrial purposes, the potential exists to encounter unexpected subsurface equipment such as septic systems, cesspools, USTs, buried utilities, foundations, piping, clarifiers, hydraulic lifts, etc. Should any of these features be encountered during redevelopment activities, they should be evaluated by an environmental professional to determine the proper handling procedures.

Additionally, the Phase I ESA revealed the following in connection with an off-site property:

- A dry cleaner is located approximately 180 feet to the northeast of the subject property. No releases were reported for this site; however, based on EEC's experience with dry cleaning sites, there is a high likelihood for releases from improper waste handling and disposal procedures and from small spills that may have occurred over time. Based on this information, length of time this site has operated as a dry cleaner (at least 50 years), and proximity to the subject property, vapors emanating from an undocumented release from this dry cleaner have the potential to impact the subject property. Therefore, the nearby dry cleaner is considered to be an offsite REC and a potential VEC.

ES.2 Conclusions

EEC has performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-13 of the residential properties and vacant lot located at 410 S. Main Street, 323 S. Belle Avenue, and 332 S. Washburn Avenue in Corona, California, the subject property. Any exceptions to, or deletions from, this practice are described in Section 1.4, *Limitations*, of this report. This assessment revealed the following REC in connection with the subject property.

- Potential for undocumented releases as a result of the former use of the subject property as a machine shop and metalworking facility.

Additionally, this assessment identified the following offsite REC:

- Potential impacts to the subject property from a nearby dry cleaner.

Based the results of this assessment, EEC recommends a limited subsurface assessment to address the onsite and offsite RECs.

1.0 INTRODUCTION

1.1 Objective

Northgate Gonzalez Real Estate, LLC (NGRE) retained EEC Environmental (EEC) to conduct a Phase I Environmental Site Assessment (ESA) at the residential properties and vacant lot located at 410 S. Main Street, 323 S. Belle Avenue, and 332 S. Washburn Avenue in Corona, Riverside County, California (subject property). The objective of the Phase I ESA is to assess the environmental condition of the subject property and identify *recognized environmental conditions* (RECs)*,* as defined by the American Society for Testing and Materials (ASTM)*,* in connection with the subject property. This Phase I ESA in being conducted in association with a real estate transaction.

1.2 Definitions

The term *recognized environmental condition* (REC) is defined by the ASTM as "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment" (ASTM E1527-13 §3.2.78).

The term *controlled recognized environmental condition* (CREC) is defined by the ASTM as "a *recognized environmental condition* resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)" (ASTM E1527-13 §3.2.18).

The term *historical recognized environmental condition* (HREC) is defined by ASTM as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a historical recognized environmental condition, the environmental professional must determine whether the past release is a recognized environmental condition at the time the Phase I Environmental Site Assessment is conducted (for example, if there has been a change in the regulatory criteria)" (ASTM E1527-13 §3.2.42).

The term *vapor encroachment condition* (VEC) is defined by ASTM as the "presence or likely presence of COC [chemical of concern] vapors in the vadose zone of the TP [target property] caused by the release of vapors from contaminated soil and/or groundwater either on or near the TP as identified by Tier 1 or Tier 2 procedures" (ASTM E2600-15 §1.1.1).

The term *de minimis condition* is defined by ASTM as "a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies" (ASTM E1527-13 §3.2.22).

1.3 Scope of Work

The assessment was conducted in accordance with the U.S. Environmental Protection Agency (USEPA) Standards and Practices for All Appropriate Inquiries (40 CFR 312); ASTM Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Designation E1527-13); and EEC's Standard Limitations. According to ASTM E1527-13, "the purpose of E1527 is to set forth a practice that constitutes all appropriate inquiries into the previous ownership and uses of the property consistent with good commercial and customary practice as defined at 42 U.S.C. 9601 (35)(B)." The Phase I ESA includes all the appropriate inquiries to support the innocent landowner defense pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act.

The assessment included the following tasks:

- Site reconnaissance to identify potential environmental concerns, such as historical and active underground storage tanks (USTs), aboveground storage tanks (ASTs), clarifiers, sumps, pits, lagoons, hazardous chemical storage areas, equipment that may contain polychlorinated biphenyls (PCBs), soil or pavement staining, and distressed vegetation.
- Review of the physical setting of the subject property, including general geology, topography, and hydrogeology.
- Visually evaluate neighboring properties to determine the potential for off-site contamination.
- Regulatory environmental file review of federal, tribal, state, regional, county, and city agency files related to the subject property(ies) and nearby properties of potential concern.
- Review of regulatory environmental database summary of federal, state, and tribal regulatory agency records associated with the subject property and off-site properties located within the ASTM-specified search distances from the subject property.
- Interviews with past and present owners, key site managers, and occupants of the subject property and state and/or local government officials to assist with identification of RECs in connection with the subject property.
- Review of reasonably ascertainable historical sources that may include aerial photographs, historical topographic maps, city directories, fire insurance maps, property tax files, recorded land title records, and building department and zoning/land use records to identify previous land use that may represent an REC.
- Review of available subject property environmental information, such as environmental reports and permits, to identify evidence of RECs.
- A review of recorded land title records, regulatory agency records, and State Institutional Controls/Engineering Controls databases for environmental liens or activity and use limitations (AULs).
- Review, in accordance with ASTM E2600-10, potential vapor encroachment conditions VECs at the subject property.
- Prepare a report documenting the methodology and findings of the Phase I ESA.

Additionally, the Phase I ESA included the following non-ASTM E1527-13 tasks:

- Review of available information related to asbestos-containing materials, lead-based paint, radon, wetlands, and flood zones.

1.4 Limitations

The conclusions presented in this report are professional opinions based solely upon visual observations of the subject property and subject property vicinity and EEC's interpretation of the available historical information and documents reviewed, as described in this report. The conclusions are intended exclusively for the purpose outlined in this report, for the specified subject property location, and for the project indicated. The opinions presented in this report apply to past and present conditions at the subject property and are not applicable to future conditions or events.

In accordance with Section 312.24, *Reviews of Historical Sources of Information*, of the All Appropriate Inquiries rule, all obvious uses of the subject property shall be identified from the present to "as far back as it can be shown that the property contained structures or from the time the property was first used for residential, agricultural, commercial, industrial, or governmental purposes." This task requires review of only as many historical sources as are necessary and are both reasonably ascertainable and likely to be useful. Historical sources could include aerial photographs, historical topographic maps, city directories, fire insurance maps, property tax files, recorded land title records, and building department and zoning/land use records. This ESA does not include physical testing for such non-scope considerations as an evaluation for the potential presence of lead in drinking water, radon gas, asbestos, or lead-based paint at the subject property. EEC's Standard Limitations are found in Appendix A.

1.4.1 Data Gaps

The term *data gap* is defined by ASTM as "a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional (EP) to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance (for example, an inability to conduct the site visit), and interviews (for example, an inability to interview key site manager, regulatory officials, etc.)." The ASTM standard requires that the report identify significant data gaps that affect the ability of the EP to ascertain RECs and to identify the sources of information that were consulted to address the data gaps.

Data Failure

The ASTM standard requires that all obvious uses of the subject property be identified from the present back to the property's first developed use, or back to 1940, whichever is earlier. Data failure is defined by ASTM as a failure to achieve historical research objectives after reviewing standard historical sources identified that are reasonably ascertainable and likely to be useful. The objective is to identify the history of use of the subject property and surrounding areas to identify past uses that may have led to RECs. This includes identifying the use of the subject property at five-year intervals back to the property's first developed use, or back to 1940, whichever is earlier. The earliest available historical source was a fire insurance map dated 1895, which indicated the subject property was developed with a single-family residence at the time. Previous historical sources were not available; therefore, it cannot be determined if the single-family residence is the first developed use. However, it is EEC's opinion that this data failure is not expected to prevent identification of RECs, because there is a low likelihood that the subject property was used for purposes that would involve environmental concerns, prior to being developed with the residence.

Site Reconnaissance Limitations

During the site reconnaissance, the interior portions of the residences were inaccessible as the residents were not present. The exterior portions of the residences also were inaccessible because each residence was enclosed with a gate and dogs were present within each exterior yard.

It is EEC's opinion that the lack of access to the residences did not prevent identification of RECs, based on their residential use, which typically does not involve the use of hazardous materials in quantities that would represent an environmental concern. Additionally, most of the exterior portions of the residences were visible from the fence lines and no readily apparent evidence of environmental concerns were identified.

Unavailable Documentation

At the time of this Phase I ESA report, the following information was not available for review:

- EEC requested subject property information from the Riverside County Department of Environmental Health (DEH). EEC has not received a response as of the date of this report.

It is EEC's opinion that the missing information did not prevent identification of RECs, because sufficient information was identified in other sources reviewed during this assessment. Should any information received from the DEH change findings of this report, EEC will issue an addendum.

2.0 USER PROVIDED INFORMATION

The term *user* is defined by ASTM as "the party seeking to use Practice E1527 to complete an environmental site assessment of the property. A user may include, without limitation, a potential purchaser of the property, a potential tenant of property, an owner of property, a lender, or a property manager" (ASTM E1527-13 §3.2.98). NGRE is the user of this report. According to the ASTM standard, certain tasks should be performed by or on behalf of the user. The results of these tasks can be provided to the environmental professional to assist in identifying RECs in connection with the subject property.

The tasks include the following: review title and judicial records for environmental liens and activity and use limitations (AULs), communicate specialized knowledge related to RECs, communicate actual knowledge related to environmental liens or AULs prior to the site reconnaissance, indicate if the purchase price of the subject property is lower than the fair market value due to contamination, communicate commonly known or reasonably ascertainable information within the local community about the subject property related to RECs in connection with the subject property prior to site reconnaissance, consider the degree of obviousness of the presence or likely presence of releases at the subject property and the ability to detect the releases by appropriate investigation, and communicate the reason for the Phase I ESA. A User Questionnaire was provided to NGRE to request this information (Appendix B, *User Provided Information*). The User also provided a Preliminary Title Report, which is described in Section 5.5 of this report. Based on information provided by the User, no environmental concerns were identified in connection with the subject property.

3.0 SITE DESCRIPTION

The subject property is located east of the intersection of S. Belle Avenue and W. 4th Street in a commercial and residential land use setting in Corona, California (Figure 1, *Site Location Map*; Figure 2, *Site Vicinity Map*). The approximately 1.31-acre subject property consists of four parcels identified as Assessor's Parcel Numbers (APNs) 117-103-026, 117-103-027, 117-142-016, and 117-142-017. The north portion of the subject property is developed with three single-family residences and a gravel lot. The remainder of the subject property consists of a vacant lot with concrete building pads from former onsite buildings and an associated asphalt-paved parking lot. A paved road (4th Street) extends east to west between the residences and vacant lot. This road turns 90 degrees to the north at the east portion of the subject property. The north/south-trending portion of this road is named Washburn Avenue.

3.1 Physical Setting

3.1.1 Topography

The subject property is depicted on the U.S. Geological Survey 7.5-minute, Corona North and Corona South, California, quadrangle maps, dated 2012. According to the maps, the subject property elevation is approximately 640 feet above mean sea level. The overall topography in the area around the subject property slopes to the north.

3.1.2 Geology and Hydrogeology

According to the Geological Map of the Corona North 7.5' Quadrangle, Riverside and San Bernardino Counties, California, the subject property is underlain by young alluvial fan deposits, Unit 1 (Holocene and late Pleistocene), which consist of pale-gray, unconsolidated, cobble- to granule-sized gravel (USGS and California Division of Mines and Geology, 1975 and 1995). According to United States Department of Agriculture (USDA) Soil Conservation Service (SCS) soil data provided by EDR, soil at the subject property consists of Garretson gravelly very fine sandy loam. According to a Case Closure Summary for a site located approximately 280 feet northwest of the subject property, depth to groundwater is expected to be approximately 78 feet below ground surface (bgs; Riverside County Department of Environmental Health, 1995). However, it should be noted that a groundwater monitoring report for another nearby site indicated groundwater depth was approximately 125 to 130 feet bgs (EAR Engineering, Construction & Support Services, 2008). The groundwater flow direction is expected to be north, based on topography.

4.0 SITE RECONNAISSANCE

On November 9, 2021, Ms. Laura Holder, Project Manager with EEC, conducted site reconnaissance of the subject property and surrounding area to examine current conditions. Site reconnaissance included observations of existing conditions at the subject property, including evidence of current and past use of hazardous materials, and a perimeter survey from public rights-of-way. Ms. Holder was unaccompanied during the site reconnaissance.

4.1 General Observations

During the site reconnaissance, the subject property consisted of three single-family residences, a gravel lot, and a vacant former commercial/industrial lot. The residences are located on the north portion of the subject property. The gravel lot is also located on the north portion of the subject property, adjacent to

the east of the residences. The gravel lot contained parking curbs, a trailer, and work equipment. Evidence of leakage/staining was observed on several areas of the gravel ground surface in this lot. The staining appeared to be a result of leaked petroleum products and the soil beneath the ground surface was also stained. This staining is considered to be a *de minimis* condition. The adjacent residence included a garage and was surrounded by a yard, walkways, and driveway and is enclosed by chain-link and concrete block fencing. A north/south-trending alley is located between this house and two residences on the west half of the north adjoining property. Trash cans are stored in the alley. The residences are surrounded by yards, walkways, and driveways and are enclosed by chain-link and concrete block fencing. Staining was observed on the concrete pavement in the driveway leading to one of the residences and in the rear yard portion of the other residence. The staining is considered to be a *de minimis* condition. West 4th Street is located immediately south of the two residential lots.

The vacant former commercial/industrial lot is located on the south portion of the subject property and is accessed from driveways off of West 4th Street to the north and South Main Street to the east. Concrete pads from former businesses were observed on this portion of the subject property. Remnant tile, mastic, and paint were visible on portions of the concrete pads. Additionally, fence posts, a drain, concrete curbs, and other areas of concrete pavement were observed on this portion of the subject property. A rectangular-shaped cut was observed in the center of the northernmost building pad. The use of this feature was not apparent; however, it appeared to possibly be a filled in pit, drain, clarifier, or similar type of feature. An asphalt-paved parking lot was observed on the north portion of the subject property and an asphalt-paved driveway was observed along the south portion of the subject property. De minimis staining was observed on the parking lot area and on the rear portion of the north building pad. Bare soil is also present between the two concrete pad areas and on the southwest portion of the property. Typical roadside trash such as paper, glass, plastic wrappers, etc. was observed in the areas of bare soil. A triangular-shaped landscaped area was observed to the east of the asphalt-paved parking lot. This area appeared to be a public use area along the sidewalk along S. Main Street. Apparent cooking grease was observed dumped onto a portion of this area.

During the site inspection, EEC did not observe any evidence of mold, odors, pools of liquid, pits, ponds, lagoons, or distressed vegetation on the subject property. Observations and details regarding specific site features are described in Sections 4.2 through 4.6 below.

4.2 Use of Hazardous Substances and Petroleum Products

EEC reviewed environmental records and conducted an inspection of the property to identify the use of hazardous substances and petroleum products. No hazardous materials or petroleum products are currently used at the subject property.

Based on the subject property's former use as a machine shop and metalworking facility, oils, lubricants, coolant, and solvents were likely used onsite in the past.

4.3 Storage Tanks and Containers

4.3.1 Underground Storage Tanks

No visual evidence indicating the presence of USTs was identified at the subject property. In addition, no records indicating the presence of former USTs were found during file reviews.

4.3.2 Aboveground Storage Tanks

No visual evidence indicating the presence of ASTs was identified at the subject property. In addition, no records indicating the presence of former ASTs were found during file reviews.

4.3.3 Drums

EEC did not observe visual evidence of drums during the site reconnaissance.

4.4 Polychlorinated Biphenyls

PCBs are chemicals that are widely used in industry for their heat-transfer properties. PCBs were historically used in electrical transformers, hydraulic fluids, and electrical equipment, such as fluorescent-light ballasts. PCBs are stable compounds that persist in the environment after a spill or improper disposal. PCBs are carcinogenic substances, and their use has been prohibited in most products since 1978. Three Southern California Edison pole-mounted transformers were observed along the west boundary of the south portion of the subject property (identification number P5193570). The transformers appeared to be in good condition, with no leaks or staining observed on or around the equipment.

4.5 Waste Management and Disposal

4.5.1 Hazardous Waste

The subject property does not currently generate hazardous waste. In addition, no records were found during file reviews that indicated the subject property previously generated hazardous waste. However, based on the subject property's former use as a machine shop and metalworking facility, oils, lubricants, coolant, and solvents were likely generated onsite in the past. Additionally, based on a review of historical fire insurance maps and building permits (Sections 5.4 and 7.5.1), it appears that scrap metal shavings and dust were generated onsite.

4.5.2 Nonhazardous Waste

Non-hazardous waste is collected into bins located in the alley and W. 4th Street, adjacent to the residences on the subject property. The bins are emptied by Waste Management on a regular basis.

4.5.3 Solid Waste

The subject property was visually examined for graded or filled areas, mounds, and depressions that might indicate that disposal of solid waste, such as fill of unknown origin, trash, and demolition debris that may have taken place. No evidence of solid waste disposal was observed on the subject property.

4.5.4 Stormwater and Wastewater

Stormwater collected on the subject property percolates into the ground or flows via sheetflow to stormwater drains located on nearby surface streets.

Wastewater is not currently generated at the subject property. No evidence of septic systems or industrial wastewater discharge was identified in connection with the subject property; however, because portions

of the subject property were developed in the 1920s to 1940s, it is possible that septic systems or cesspools were previously used onsite in connection with the residences and former commercial/industrial businesses. During the site reconnaissance, a rectangular-shaped cut in the concrete was observed in the center of one of the former building pads. It appeared to possibly be associated with a former floor drain, pit, clarifier, or other similar type of feature. No additional information was found related to this feature.

4.6 Wells

No water supply wells were observed on the subject property or adjoining properties. According to EDR, the nearest public water supply well to the subject property is located approximately 1/8 mile to the east-southeast. This well is owned by the Lee Lake Water District.

4.7 Adjoining Properties

North – Single-family residences.

Northeast – S. Washburn Avenue, beyond which is a retail strip center with the following tenants, from north to south: American Cleaners, The Paw Spa Grooming, Jiu Jitsu, Goss Engineering, Inc., and Tamazula Baja Grill (310 to 324 S. Main Street). A Mobil gasoline station is located further to the northeast, at 304 S. Main Street.

East –The intersection of S. Main Street and E. 4th Street, beyond which is a retail strip center to the north of E. 4th Street, with the following tenants from north to south: Cashback Loans, Baker's Deli, Baker's Dozen Donuts, and Martin Associates (321 to 325 S. Main Street). To the south of E. 4th Street is Hunny's Café (402 S. Main Street).

Southeast – S. Main Street, beyond which is Corona Mall Strip Center, which includes the following tenants from north to south: Tutoring Club, Emerald Escrow, Inc., Hair & Nail Shoppe, Grapevine Home Health Services, Inc., Corona Mall Medical Group Urgent Care, and Reimcorp (442 to 462 Corona Mall).

South – A retail strip center with the following tenants from north to south: Vacant (formerly Command Center), Carolina's Salon, Extra Mile Insurance, Super Taco, and Jashua Liquor (450 S. Main Street), beyond which is a vacant medical building (203 W. 6th Street).

Southwest – An undeveloped lot, beyond which is the intersection of S. Belle Avenue and W. 5th Street.

West – An undeveloped lot and single-family residences along S. Belle Avenue.

Northwest – S. Belle Avenue, beyond which are single-family residences.

5.0 PROPERTY HISTORY

The subject property was developed with single-family residences and associated buildings from at least 1895 to the 1930s. A vacant building, carpenter shop, and blacksmith shop were also located on the subject property during this time period. In the 1930s, the south portion of the subject property was developed with a machine shop. A roofing company was developed next to the machine shop in the 1940s. A new residence was developed on the north portion of the subject property in the 1950s. The south

portion of the subject property continued to be used as a machine shop from the 1950s to the early 1990s. Other metalworking companies operated at this portion of the subject property during this time frame. One of the residences on the north portion of the subject property was demolished and replaced by a gravel lot in the 1990s. From the mid-1990s to 2000s, the buildings on the south portion of the subject property were occupied by a sign and lighting company, carpet shop, and drapery and upholstery shop. The buildings on the south portion of the subject property were demolished in 2013 and only building pads remain. The north portion of the subject property remains developed with single-family residences.

5.1 Aerial Photographs

The type and layout of structures visible in an aerial photograph of a property can often indicate the general type of on-site activity and land use; however, specific elements of a property operation cannot normally be determined from the photographs. EEC reviewed aerial photographs provided by EDR for the years of 1931, 1938, 1948, 1953, 1959, 1961, 1967, 1975, 1985, 1989, 1990, 2006, 2009, 2012, and 2016 (Appendix C, *Aerial Photographs*). Table 5-1, *Historical Land Use Based on Aerial Photographs*, summarizes the land use history of the subject property and vicinity based on a review of aerial photographs.

Table 5-1, Historical Land Use Based on Aerial Photographs

Year	Property	Vicinity
1931	The south portion of the subject property is developed with two commercial or industrial buildings and one smaller building that is commercial or residential. The north portion of the subject property consists of two single-family residences to the north of W. 4th Street. The westernmost residence (currently present onsite) has an apparent garage next to it. The easternmost residence is in the location of the current gravel lot.	Adjoining properties consist of single-family residences, with the exception of the east and southeast adjoining properties, which are developed with industrial buildings.
1938	There are no significant changes from the previous photograph, except that the residential or commercial building on the south portion of the subject property is no longer visible. An area of white-colored soil appears to be emanating from the northwest corner of one of the commercial or industrial buildings on the subject property (408 S. Washburn Avenue). Additionally, the apparent garage on the north portion of the subject property is no longer visible.	There are no significant changes from the previous photograph.
1948	The two commercial or industrial buildings on the south portion of the subject property are now connected and an additional connected building is visible to the rear (west) of these buildings. An apparent new garage is visible on the	No significant changes are visible from the previous photograph.

Year	Property	Vicinity
	westernmost residence on the north portion of the subject property.	
1953	There are no significant changes from the previous photograph.	There are no significant changes from the previous photograph.
1959	No significant changes are visible from the previous photograph, except that two additional residences are visible on the north portion of the subject property (currently present onsite).	No significant changes are visible from the previous photograph, except that the adjoining property to the northeast appears to be a parking lot.
1961	No significant changes were noted from the previous photograph.	No significant changes were noted from the previous photograph, except that the 91 Freeway and associated exit and entrance ramps are visible in the general surrounding area, to the north.
1967	No significant changes were noted from the previous photograph.	No significant changes were noted from the previous photograph.
1975	No significant changes were noted from the previous photograph.	No significant changes were noted from the previous photograph, except that Main Street to the east has been re-routed so it curves to the west and runs along the east side of the subject property, in the location of former Washburn Avenue. Additionally, a retail strip center and gas station are visible to the northeast (similar to preset) and the Corona Mall commercial complex is visible to the east (similar to present).
1985	There are no significant changes from the previous photograph.	There are no significant changes from the previous photograph.
1989	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph, except that a retail strip center is located on the south adjoining property (similar to present).
1990	No significant changes are visible from the previous photograph, except that the residence on the easternmost side of the north adjoining property (current gravel lot) is no longer present.	No significant changes are visible from the previous photograph.
2006	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph.
2009	No significant changes are visible from the previous photograph.	No significant changes are visible from the previous photograph, except that the southwest adjoining property is now a vacant lot.
2012	No significant changes are visible from the previous photograph, except that the southernmost portion of the industrial building is no longer visible.	No significant changes are visible from the previous photograph, except that the west adjoining property is now a vacant lot.
2016	No significant changes are visible from the previous photograph, except that all buildings were removed from the south	No significant changes are visible from the previous photograph.

Year	Property	Vicinity
	portion of the subject property and only concrete building pads remain.	

5.2 Topographic Maps

The general land use of a property can often be discerned from the type and layout of structures and features depicted on a historical topographic map. However, discrete elements of a Subject Property operation cannot normally be determined from the map. EEC reviewed historical USGS topographic maps for the years of 1902, 1942, 1947, 1954, 1967, 1973, 1981/1982, 1988, 1997, and 2012 (Appendix D, *Historical Topographic Maps*). Table 5-2, *Historical Land Use Based on Topographic Maps* summarizes the land use history of the subject property and vicinity based on a review of topographic maps.

Table 5-2, Historical Land Use Based on Topographic Maps

Map Year/ Quadrangle	Subject property	Vicinity
1902/ Corona	The east half of the subject property is developed with one or more structures.	Surrounding properties consist of paved roads and an apparent mix of residential and commercial structures.
1942/ Corona and Vicinity	This map is created in a style that does not depict all individual structures; therefore, pertinent information about the subject property is not included on this map.	This map is created in a style that does not depict all individual structures; therefore, pertinent information about the surrounding properties is not included on this map.
1947/ Corona	The subject property is shaded pink, indicating general urban development.	The surrounding properties are shaded pink, indicating general urban development.
1954/ Corona North and Corona South	There are no significant changes from the previous map.	There are no significant changes from the previous map.
1967/ Corona North and Corona South	There are no significant changes from the previous map.	There are no significant changes from the previous map, except that the 91 Freeway is depicted in the general surrounding area to the north.
1973/ Corona North and Corona South	There are no significant changes from the previous map.	There are no significant changes from the previous map.

Map Year/ Quadrangle	Subject property	Vicinity
1981/ Corona North 1982/ Corona South	There are no significant changes from the previous map.	There are no significant changes from the previous map, except that Main Street to the east has changed configuration so that it curves toward Washburn Avenue and then replaces it for two blocks before curving back to its original position.
1988/ Corona South	The subject property is not depicted on this map.	Adjoining properties are not depicted on this map.
1997/ Corona South	The subject property is not depicted on this map.	Adjoining properties are not depicted on this map.
2012/ Corona North and Corona South	This map is created in a style that does not depict individual buildings. Therefore, pertinent information about the subject property is not included on this map.	This map is created in a style that does not depict individual buildings. Therefore, pertinent information about the subject property is not included on this map.

5.3 City Directories

City directories from 1921 to 2017 were reviewed for the subject and adjoining properties (Appendix E, *City Directory Report*). The following listings were identified for the subject property:

323 S. Belle Avenue

- 1941-2014: Residential listing

410 S. Main Street

- 1977: Davis Fabricators Inc.
- 1981-1990: Corona Machine Shop
- 1993: Corona Iron Works
- 1994: California Lighting & Sign Service, Carpets by Ledoux
- 1996: The Carpet Outlet
- 1999: The Carpet Outlet, J&M Draperies and Upholstery
- 2001-2004: The Carpet Outlet

410 Washburn Avenue (historical address)

- 1931: Turbyfill G. H. Blacksmith Shop
- 1939: Turbyfill G. H., blacksmith
- 1941: vacant
- 1956: Engine Cooler Co., Corona Machine Shop

- 1967: Free Flow Engine Cooler Co., Corona Machine Shop
- 1970: Engine Cooler Co., Free Flow Engine Cooler Co., Corona Machine Shop

412 Washburn Avenue (historical address)

- 1931: Corona Pack HSE Equipment Co.
- 1939: Corona Machine Shop
- 1941: Gagners Machine Shop

Additionally, city directories indicated that the surrounding area was developed with residences and commercial businesses since 1921. Numerous gasoline stations, a machine shop, and two dry cleaners were identified in the surrounding area. One of the dry cleaners, American Dry Cleaners, is considered to represent an environmental concern. See Section 8.0 for additional information related to this dry cleaner. None of the remaining adjoining sites are considered to represent an environmental concern, based on their distance, gradient relative to the subject property, lack of reported releases, and/or case closed status of release cases.

5.4 Fire Insurance Maps

EDR was contracted to conduct a search for Sanborn fire insurance maps (Appendix F, *Historical Sanborn Maps*). Fire insurance maps depict land use history for many portions of the United States and assist in determining whether there may be potential environmental contamination on or near a subject property. These maps, which have been periodically updated since the late 19th Century, often provide valuable insight into historical property uses. EEC reviewed historical fire insurance maps for the years of 1891, 1895, 1900, 1907, 1911, 1928, 1942, and 1960 (Appendix F). Table 5-3, *Historical Land Use Based on Fire Insurance Maps* summarizes the land use history of the subject property and vicinity based on a review of fire insurance maps.

Table 5-3, Historical Land Use Based on Fire Insurance Maps

Year	Property	Vicinity
1891	The subject property is not depicted on this map.	Only properties in the general surrounding area to the southeast are shown. These properties include stores and various retail businesses along S. Main Street.
1895	4th Street divides the north and south portion of the subject property, and an alley runs north to south along the west side of the south portion of the subject property and between the two residential lots on the north portion, similar to present. The south portion of the subject property is developed with a residence and two associated structures (likely sheds or garages). The remainder of the subject property is undeveloped.	The north, northwest, and northeast adjoining properties are not depicted on this map. To the east are a commercial building and Newport Lumber Co. To the south are two residences. No other development was noted on the adjoining properties, aside from paved roads.
1900	It appears that the residence on the subject property was demolished, and a new residence was built. The associated structures are still present in the same location and	There are no significant changes from the previous map, except that a new building, likely a shed or garage, is depicted on the same lot as one of the residences to the south.

Year	Property	Vicinity
	configuration. No other changes were noted from the previous photograph.	
1907	There are no significant changes from the previous map, except that one of the sheds or garages was reduced in size, and the other was no longer depicted. Additionally, a vacant building was depicted on the easternmost residential lot on the north portion of the subject property.	The west half of the north adjoining property and the northwest adjoining property are not depicted on this map. A small, unlabeled structure is depicted on the east half of the north adjoining property. A residence is depicted on the northeast adjoining property and a residence is also depicted on the north portion of the east adjoining property. The lumber company is still present to the east and a new lumber company, Corona Lumber Co., is depicted on the southeast adjoining property. Two additional structures are depicted on the residential property to the south, which are likely sheds or garages. A residence is also located on the west adjoining property.
1911	The existing shed or garage is no longer present on the south portion of the subject property and a new shed or garage is depicted west of the existing residence, which is now addressed as 402 Washburn. The vacant building is no longer present on the north portion of the subject property and a new residence is present on this portion of the property. The residence is addressed as 324 Washburn. A carpenter shop is also located on the easternmost residential lot, at the corner of the alley and W. 4th Street, addressed as 211 W. 4th Street. A small structure, likely a shed or garage, is located on the westernmost residential lot, just on the other side of the alley from the carpenter shop.	No significant changes were noted from the previous photograph, except that a single-family residence was depicted beyond the north adjoining property. Additionally, the lumber company to the southeast is replaced by O.H. Bell Feed & Fuel Yard including hay sheds, a wagon shed, and cordwood piles. It does not appear that any petroleum-type fuel is associated with this property. Additionally, two residences are depicted on the southwest adjoining property. A laundry facility is depicted in the general surrounding area to the southeast, at 508 Main Street.
1928	The carpenter shop and nearby shed or garage are no longer depicted on the north portion of the subject property. A residence and apartment are depicted on the west portion of the north portion of the subject property. The shed or garage is no longer depicted to the west of the residence on the south portion of the subject property, but a new residence is now depicted to the west of the residence and is addressed as 402 ½ Washburn Avenue. A blacksmith shop with an earth floor is depicted to the south of the residence and addressed as 408 Washburn Avenue. A small shed or garage is depicted on the southwest portion of the subject property.	No significant changes were noted from the previous photograph, except that additional residences and a blacksmith and welding shop are depicted on the north adjoining property. ABM Service Co. Planing Mill and a Small Animal Hospital, and office replaced the feed and fuel yard to the southeast.

Year	Property	Vicinity
1942	The residence and associated shed or garage are no longer depicted on the south portion of the subject property. The blacksmith shop is now a building occupied by a roofing storage company. A machine shop is depicted on the south portion of the subject property, at 410 Washburn Avenue.	No significant changes were noted from the previous photograph, except that the blacksmith and welding shop is no longer present on the north adjoining property.
1960	No significant changes were noted from the previous photograph, except that the building occupied by the roofing storage company is now used for metal storage and includes metal storage sheds which were added to the west of the building. A shavings hopper was depicted, but not in use.	No significant changes are visible from the previous photograph.

5.5 Property Title Records

EDR was contracted to conduct a search for environmental liens and AULs pertaining to the subject property. According to the Environmental Lien Search Report, title to APN 117-103-026 is vested in Moises Chambi. Title was received from Raquel Villareal on January 4, 2006. Title to APNs 117-103-027, 117-142-016, and 117-142-017 is vested in Israel Chambi. Title was received from Moises Chambi on July 9, 2019. No environmental liens or AULs were identified for the subject property in the Environmental Lien Search Report (Appendix G, *Environmental Lien Search Report*).

Additionally, NGRE provided a Preliminary Title Report for the subject property (Appendix B). According to the report, easements for utilities and streets are recorded for the subject property. No environmental liens or AULs were identified for the subject property in the Preliminary Title Report.

5.6 Previous Environmental Reports and Documents

No previous environmental reports or documents were provided for review.

6.0 INTERVIEWS

During this assessment, Ms. Holder conducted an interview with the present owner of the subject property to obtain information related to RECs in connection with the subject property. Information obtained from the interviews is provided in Table 6-1, *Interviews*.

Table 6-1, Interviews

Name, Title, and Relationship to Property	Information Obtained
Subject property owner, Mr. Israel P. Chambi, MD	Dr. Chambi has owned the subject property for 16 years. Dr. Chambi indicated that the subject property is developed with two 1,100-square foot houses which were constructed in 1950. Based on the completed questionnaire, he is not aware of any environmental concerns at the subject property, such as hazardous materials, petroleum products, drums, fill dirt, waste pits, ponds, or lagoons, stained soil, USTs, ASTs, wells,

	wastewater treatment systems, grease traps, clarifiers, sumps, hazardous waste or other waste materials onsite, transformers, hydraulic lifts, elevators, vent pipes, fill pipes, foul odors emanating from drains, flooring, or walls, or previous environmental assessments or work that identified contamination. He stated that he is not aware of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products. He also stated that he is not aware of any past, threatened, or pending litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property.
Site occupants	During the site reconnaissance, the site occupants could not be interviewed because they were not present.
Past owner	The past owner was not interviewed during this assessment, because contact information was not provided.

7.0 REGULATORY AGENCY FILE REVIEWS

EEC submitted written requests to various government agencies for information regarding historical land use and potential environmental issues and to evaluate the potential for the subject property to be impacted by off-site sources of contamination (Appendix H, *Agency Correspondence*).

7.1 Federal

7.1.1 United States Environmental Protection Agency

On November 19, 2021, EEC accessed the USEPA MyProperty online database. According to the database, there are no records on file for the subject property.

7.1.2 Pipeline and Hazardous Materials Safety Administration

The Pipeline and Hazardous Materials Safety Administration, National Pipeline Mapping System Public Map Viewer was accessed on November 19, 2021, to determine if any pipelines or related accidents are located on or near the subject property. According to the website, there are no pipelines within ½ mile of the subject property.

7.2 State

7.2.1 California Geologic Energy Management Division

The California Geologic Energy Management Division (CalGEM) Well Finder was accessed on November 19, 2021. According to the website, there are no oil or gas wells within two miles of the subject property.

7.2.2 California Department of Toxic Substances Control

On November 5, 2021, EEC contacted the California Department of Toxic Substances Control (DTSC) to determine if there are any records on file for the subject property. The DTSC responded on November 15, 2021, that they do not have any records on file for the subject property.

Additionally, on November 19, 2021, EEC accessed the DTSC EnviroStor website to determine if the subject property or adjoining properties have any land use restrictions or environmental liens. According to the EnviroStor database, no land use restrictions or environmental liens were identified for the subject property or adjoining properties.

7.2.3 State Water Resources Control Board

On November 5, 2021, EEC requested a file review with the Santa Ana Regional Water Control Board (RWQCB). According to the RWQCB on November 9, 2021, there are no records on file for the subject property.

7.3 Regional

7.3.1 South Coast Air Quality Management District

On November 19, 2021, EEC accessed the South Coast Air Quality Management District Facility Information Detail online database. According to the database, U.M.E. Inc. was identified at 408 S. Main Street. No equipment or further information was included on the database. Based on a general internet search, it appears that U.M.E. likely stands for Universal Metalworking Equipment.

7.4 County

7.4.1 Riverside County Department of Environmental Health

On November 5, 2021, EEC requested a file review with the Riverside County Department of Environmental Health (DEH). EEC has not received a response as of the date of this report.

7.5 Local

7.5.1 City of Corona

On November 5, 2021, EEC contacted the City of Corona to request copies of all building records for the subject property and to inquire if any industrial wastewater records are on file for the subject property. Additionally, EEC inquired if the Fire Department has any records pertaining to hazardous materials or chemicals onsite. According to the City of Corona, the following building records are on file for the subject property (electronic copies of 323 S. Belle Avenue permits were provided by the City and the rest were viewed online):

323 S. Belle Avenue

- 4/1/1950: Building permit for a 3’ x 3’ toilet room.
- 8/21/1957: Electrical permit for a plug (type not legible), a building permit is also on file for a garage addition.
- 2/6/1979: Notice of Additions or Corrections related to labeling circuit breakers.
- 7/6/1979: Request for Final Inspection and Occupancy Permit for an electrical upgrade for two meters.
- 11/10/1979: Request for Final Inspection and Occupancy Permit for turning on gas utility service.

410 S. Main Street

- 6/3/1992: Building permit to install a dust collection system.
- 8/12/1992: Plan check at a miscellaneous commercial building.
- 11/6/1992: Sign permit for Unit 102 Sign, Fast Signs Main Street.
- 11/9/1992: Sign permit
- 11/30/1992: Tenant improvements for a sign company.
- 1/21/1993: Replace fire-damaged electrical panel.
- 2/8/1993: Building permit for a miscellaneous commercial building.
- 3/1/1995: Building permit for a 21,000-square foot commercial assembly building.
- 11/30/1998: Permit for banners, flags, helium balloons for a carpet outlet store.
- 2/19/2002: Sign permit
- 8/26/2009: Building permit to demolish a 6,000-square foot non-commercial building.

The City of Corona indicated there are no industrial wastewater discharge records on file for the subject property. The Fire Department indicated that there are no records on file for the subject property.

8.0 ENVIRONMENTAL DATABASE SEARCH

EEC contracted EDR to perform a regulatory database review for the subject property and surrounding properties up to 1.0 mile from the subject property (Appendix I, *EDR Database Search Report*). The purpose of the database review is to identify sites of potential environmental concern, such as leaking underground storage tank (LUST) sites; spills, leaks, investigation, and cleanup (SLIC) sites; historical gasoline service stations and dry cleaners; hazardous waste sites; landfills; and sites that are currently under investigation for environmental violations. The EDR radius report includes maps showing the locations of the environmental concerns. The subject property was not identified on the environmental database.

EEC evaluated all adjoining or nearby sites listed on the database for their potential to impact the subject property. Table 8-1, *Environmental Database Search Results*, summarizes the results of the database search for nearby sites of environmental interest. Not all sites on the database are included on the table below; however, all offsite properties were evaluated to determine if they present an environmental concern to the subject property.

Table 8-1, Environmental Database Search Results

Site Name and Address	Database	Location and Presumed Hydraulic Gradient Relative to Subject Property	Description
Corona RDA Main at Ramona Property 480 S. Main Street/599 S. Ramona Avenue	US BROWNFIELDS	Approximately 100 feet east, crossgradient	According to the database, the property is currently the Corona Mall and was previously residential, retail, warehouses, lumber company, commercial, bank, hotel from 1891 to 1969 and Corona Mall from 1969 to present. A Phase I Environmental Site Assessment was completed in 2010. The results were not included, and it appears

			the status was "undetermined"; however, no contaminants were identified. Based on this information and the site's crossgradient location relative to the subject property, it is not expected to represent an environmental concern.
American Dry Cleaners 310 S. Main Street	DRYCLEANERS, CERS HAZ WASTE, CERS, EDR Hist Cleaner	Approximately 180 feet northeast, cross- to downgradient.	This site is a dry cleaner that used tetrachloroethene (PCE) and petroleum solvent in its dry cleaning process. The site operated since at least 1970. The facility received violations related to signage, reporting, and training. No releases were reported. However, based on EEC's experience with dry cleaning sites, there is a high likelihood for releases even with small spills that may have occurred over time. Based on this information and proximity to the subject property, this site represents an environmental concern.
Unocal #6216/Circle K Store 304 S. Main Street	LUST, Cortese, CERS, UST, CERS HAZ WASTE, HIST UST, CERS TANKS, HAZNET, HWTS, SWEEPS UST, CA FID UST, HIST CORTESE, EDR Hist Auto, RCRA NonGen/NLR	Approximately 280 feet northeast, cross- to downgradient.	According to the databases, this site has operated as a gasoline station since at least 1971. A Case Closure Summary reviewed on GeoTracker indicated that a release of gasoline impacted soil. Groundwater was not encountered during site investigations. Some impacted soil was excavated at the dispenser islands and confirmation samples indicated petroleum hydrocarbons were not detected. Soil with low concentrations of petroleum hydrocarbons were left in place in some areas. The case was closed in 1995. This site still operates as a gasoline service station. Based on the site's distance and cross- to downgradient location relative to the subject property, any potential additional releases are not expected to impact the subject property; therefore, this site is not expected to represent an environmental concern.
American Dry Cleaners 425 S. Corona Mall	EDR Hist Cleaner	Approximately 400 feet east-southeast, crossgradient	According to the database, American Dry Cleaners operated at this site from 1970 to 1975. Based on the site's distance and crossgradient location relative to the subject property, it is not expected to represent an environmental concern.
Fink S Star Garage & Machine Shop 217-219 W. 6th Street	EDR Hist Auto	Approximately 400 feet south-southwest, cross- to upgradient	According to the database, this site was an automotive repair and machine shop in 1924 to 1939. Based on distance from the subject property, it is not expected to represent an environmental concern.
Chevron #9-9010/Corona Mall Oil Company	LUST, CERS HAZ WASTE, CERS TANKS,	Approximately 450 feet east-northeast, crossgradient	A Case Closure Summary reviewed on GeoTracker indicated that soil sampling completed during upgrade activities identified low concentrations of

309 S. Main Street	HAZNET, CERS, HWTS, SWEEPS UST, CA FID UST, LUST HIST UST, CORTESE, NOTIFY 65, CERS, RCRA-LQG, FINDS		petroleum hydrocarbons, which did not impact groundwater. No remediation was warranted. The case was closed in 2010. This site still operates as a gasoline service station. Based on the site's distance and crossgradient location relative to the subject property, any potential additional releases are not expected to impact the subject property; therefore, this site is not expected to represent an environmental concern.
Albert Klein 301 W. 6th Street	EDR Hist Auto	Approximately 475 feet southwest, cross- to upgradient	According to the database, this site was a gasoline station in 1939. No releases are reported for this site, which is no longer a gasoline station; therefore, it is not expected to represent an environmental concern.

The database compilation report also includes a list of unmappable sites (Orphans Summary). Data provided, such as city names, addresses, and zip codes, were cross-referenced with visual site reconnaissance and searches of online mapping tools to determine if the subject property or any nearby sites of potential environmental concern were listed. The subject property was not listed on the unmappable sites list. No sites of potential environmental concern were identified on the unmappable sites list.

9.0 VAPOR ENCROACHMENT SCREENING

As part of this Phase I ESA, EEC conducted a vapor encroachment screening utilizing the ASTM E2600-15 Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions and the Buonicore Methodology for Identifying the Area of Concern Around a Property Potentially Impacted by Vapor Migration from Nearby Contaminated Sources (Buonicore, 2011). The area of concern (AOC) is determined from the subject property boundary to the potential source of contamination. The AOC distance is determined based upon a conservative plume length estimate and the distance that volatilized vapors may travel along a path of least resistance from a plume. A 90th-percentile distance was utilized to determine the plume length in order to determine AOCs.

EEC reviewed release cases and potential sources of releases (such as historical gasoline service stations and dry cleaners) within the 1,760-foot AOC for non-petroleum hydrocarbons and the 528-foot AOC for petroleum hydrocarbons. Using the Buonicore method, EEC reduced the AOC for release cases that were determined to be crossgradient or downgradient relative to the subject property. Using this method, the AOC for crossgradient sites with non-petroleum hydrocarbons is 365 feet and the AOC for crossgradient sites with petroleum hydrocarbons is 95 feet (dissolved petroleum hydrocarbons) or 165 feet (with free product). The AOC for downgradient sites is 100 feet, unless it is a petroleum hydrocarbon release with dissolved petroleum hydrocarbons, in which case the AOC is 30 feet.

Based on information reviewed during this assessment, the following VECs were identified:

- The potential for undocumented releases as a result of the former use of the subject property as a machine shop and metalworking facility is considered to be a potential VEC.

- Potential impacts to the subject property from a nearby dry cleaner are a potential VEC.

10.0 NON-ASTM CONSIDERATIONS

10.1 Asbestos

Asbestos is a naturally occurring fibrous mineral that was extensively used in the past for its insulation qualities. Asbestos fibers can be found in thermal insulation, fire-proofing material, vinyl floor tiles, mastic, wallboard, ceiling tiles, roofing material, and numerous other materials. After asbestos was determined to be carcinogenic, its use was severely restricted in the late 1970s. Building materials are classified as asbestos-containing material (ACM) if they contain greater than 1% asbestos fibers. Such material is considered a hazardous material and must be properly disposed of when removed or managed under an operations and maintenance plan.

Due to the date of the building construction of the existing residences (1920s and 1950s) and former industrial buildings (1930s to 1940s), there is a potential that ACMs exist at the subject property, in the existing residential buildings and in the remnant building materials (tile and mastic) on the former industrial building pads. However, only a complete, intrusive asbestos sampling survey can definitively determine the presence of ACMs.

10.2 Lead-Based Paint

A lead-based paint survey was not conducted as part of this assessment. However, based on visual observations, painted surfaces observed during the site reconnaissance were generally in good condition.Due to the date of the building construction of the existing residences (1920s and 1950s) and former industrial buildings (1930s to 1940s), there is a potential that lead-based (LBP) paint exists at the subject property, in the existing residential buildings and in the remnant paint on the former industrial building pads. However, only a complete, intrusive LBP sampling survey can definitively determine the presence of lead-based paint.

10.3 Radon

Radon is an odorless, radioactive gas that occurs naturally in soil, rock, and building materials. It results from the natural radioactive decay of radium and uranium. In outdoor air, radon is generally diluted to such low concentrations that it is usually not of concern. In enclosed spaces, such as homes, offices, and/or basements, radon can accumulate and pose an environmental concern. Indoor levels of radon depend on a building's construction and the concentration of radon in the underlying soil and rock.

The subject property is located within Riverside County, California, which has been designated by the USEPA as Radon Zone 2. Zone 2 is designated as having an indoor radon average of between 2 and 4 picocuries per liter (pCi/L). The USEPA has set a standard of 4.0 pCi/L as the concentration of radon at which corrective action is recommended. According to the EDR environmental database report, State radon testing was performed at 30 sites in the subject property zip code and none of the sites contained radon levels that exceeded 4.0 pCi/L. Federal radon testing was performed at 12 sites in the subject property zip code and 100% of the sites had radon concentrations that were below 4.0 pCi/L. Based on this information, there is low potential for elevated levels of radon at the subject property. However, radon testing is the only way to determine specific radon concentrations at a property.

10.4 Mold

The residences on the subject property were inaccessible during the site reconnaissance; therefore, the potential for mold or conditions conducive to mold could not be assessed.

10.5 Flood Zone

According to information provided on the Federal Emergency Management Agency Flood Insurance Rate Map for the City of Corona, California, Map Number 06065C0689G, dated August 28, 2008, the south portion of the subject property is located in Zone X, areas outside the 0.2% annual chance floodplain. The north portion of the subject property is also located in Zone X, but with the designation of being in areas of 0.2% annual chance flood; areas of 1% annual chance flood with average depths of less than one foot or with drainage areas less than one square mile; or areas protected by levees from 1% annual chance flood.

10.6 Federal Wetlands

No designated wetlands were identified on the subject property based on a review of the EDR environmental database report. In addition, no natural standing bodies of water or typically hydrophytic vegetation were observed on the subject property during site reconnaissance. A review of the U.S. Fish & Wildlife Service National Wetlands Inventory Wetlands Mapper did not identify any riparian or wetlands areas in the vicinity of the subject property.

11.0 FINDINGS AND CONCLUSIONS

11.1 Findings

Based on site observations and information gathered, the Phase I ESA revealed the following in connection with the subject property:

- Depth to groundwater is expected to be between 125 and 130 feet below ground surface (bgs) and the groundwater flow direction is expected to be north, following topography.

- Based on a review of aerial photographs, city directories, building permits, and fire insurance maps, the south portion of the subject property was previously developed with industrial buildings that were occupied by a machine shop and other metalworking companies from the 1930s to early 1990s. Based on the nature of operations, the former occupants likely used hazardous substances including oils, lubricants, and solvents and generated scrap metal shavings and dust. Additionally, a rectangular-shaped cut was observed in the concrete in the center of one of the associated building pads that appeared similar to a former pit, clarifier, or drain. Information was not available related to the handling practices of hazardous materials or hazardous waste disposal practices. Based on the potential for an undocumented release from the former machine shop and metalworking facilities, the former use is considered to be a REC and a potential VEC.

- Due to the date of the building construction of the existing residences (1920s and 1950s) and former industrial buildings (1930s to 1940s), there is a potential that asbestos-containing materials (ACMs) and lead-based paint (LBP) exist at the subject property, in the existing residential buildings and in the remnant building materials (tile, paint, and mastic) on the former

industrial building pads. However, only a complete, intrusive ACM and LBP sampling survey can definitively determine the presence of ACMs and LBP.

- Based on the history of use with various structures and businesses, used for residential, commercial, and industrial purposes, the potential exists to encounter unexpected subsurface equipment such as septic systems, cesspools, USTs, buried utilities, foundations, piping, clarifiers, hydraulic lifts, etc. Should any of these features be encountered during redevelopment activities, they should be evaluated by an environmental professional to determine the proper handling procedures.

Additionally, the Phase I ESA revealed the following in connection with an off-site property:

- A dry cleaner is located approximately 180 feet to the northeast of the subject property. No releases were reported for this site; however, based on EEC's experience with dry cleaning sites, there is a high likelihood for releases from improper waste handling and disposal procedures and from small spills that may have occurred over time. Based on this information, length of time this site has operated as a dry cleaner (at least 50 years), and proximity to the subject property, vapors emanating from an undocumented release from this dry cleaner have the potential to impact the subject property. Therefore, the nearby dry cleaner is considered to be an offsite REC and a potential VEC.

11.2 Conclusions

EEC has performed this Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-13 of the residential properties and vacant lot located at 410 S. Main Street, 323 S. Belle Avenue, and 332 S. Washburn Avenue in Corona, California, the subject property. Any exceptions to, or deletions from, this practice are described in Section 1.4, *Limitations*, of this report. This assessment revealed the following REC in connection with the subject property.

- Potential for undocumented releases as a result of the former use of the subject property as a machine shop and metalworking facility.

Additionally, this assessment identified the following offsite REC:

- Potential impacts to the subject property from a nearby dry cleaner.

Based the results of this assessment, EEC recommends a limited subsurface assessment to address the onsite and offsite RECs.

12.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

This Phase I ESA was performed by Ms. Laura Holder, a project manager trained in the performance of environmental investigations pursuant to accepted government and industry standards. Ms. Holder has 16 years of experience in environmental consulting and has a Bachelor of Arts in Geography from Sonoma State University in Rohnert Park, California. Ms. Holder has performed hundreds of Phase I ESAs in California, Nevada, Arizona, and Texas. Additionally, Ms. Holder has performed compliance audits, subsurface investigations, hazardous materials business plans, and litigation support.

This Phase I ESA was reviewed and overseen by Ms. Emily Vavricka, a Project Scientist trained in the performance of environmental investigations pursuant to accepted government and industry standards. Ms. Vavricka has more than 16 years of experience in environmental consulting and has a Master of Science in Environmental Science / Hydrogeology from California State University, Fullerton, and a Bachelor of Science in Environmental Science from University of California, Riverside.

Résumés for environmental professionals involved in this assessment are included in Appendix J, *Environmental Professional Résumés*.

12.1 Certification

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR § 312.

We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Laura Holder
Project Manager

Emily Vavricka
Project Scientist

APPENDIX A
EEC STANDARD LIMITATIONS

STANDARD LIMITATIONS

The conclusions and recommendations contained in this report/assessment are based upon professional opinions with regard to the subject matter. These opinions have been arrived at in accordance with currently accepted hydrogeologic and engineering standards and practices applicable to this location and are subject to the following inherent limitations:

1. EEC derived the data in this report primarily from visual inspections, examination of records in the public domain, and interviews with individuals having information about the site. The passage of time, manifestation of latent conditions, or occurrence of future events may require further exploration at the site, analysis of the data, and reevaluation of the findings, observations, and conclusions in the report.

2. The data reported and the findings, observations, and conclusions expressed in the report are limited by the scope of the work. The scope of the work was defined by the request of the client, the time and budgetary constraints imposed by the client, and availability of access to the site.

3. Because of the limitations stated above, the findings, observations, and conclusions expressed by EEC in this report are not, nor should not be, considered an opinion concerning the compliance of any past or present owner or operator of the site with any federal, state, or local law or regulation.

4. EEC's Phase I reports present professional opinions and findings of a scientific and technical nature. While attempts were made to relate the data and findings to applicable environmental laws and regulations, the report shall not be construed to offer legal opinion or representations as to the requirements of, nor compliance with, environmental laws, rules, regulations, or policies of federal, state, or local government agencies. Any use of the Phase I report constitutes acceptance of the limits of EEC's liability. EEC's liability extends only to its client and not to any other parties who may obtain the Phase I report. Issues raised by the report should be reviewed by appropriate legal counsel.

5. The conclusions presented in this report are professional opinions based on data described in this report. They are intended only for the purpose, site location, and project indicated. This report is not a definitive study of contamination at the site and should not be interpreted as such. An evaluation of subsurface soil and ground water conditions was not performed as part of this investigation. No sampling or chemical analyses were performed or assessment of asbestos-containing materials was completed as part of this study unless explicitly stated.

6. This report is based, in part, on unverified information supplied to EEC by third-party sources. While efforts have been made to substantiate this third-party information, EEC cannot guarantee its completeness or accuracy.

APPENDIX B
USER PROVIDED INFORMATION

First American	ALTA Commitment for Title Insurance
Commitment	ISSUED BY First American Title Insurance Company File No: NCS-1090922-SA1

COMMITMENT FOR TITLE INSURANCE

Issued By

FIRST AMERICAN TITLE INSURANCE COMPANY

NOTICE

IMPORTANT-READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, *First American Title Insurance Company*, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

First American Title Insurance Company

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

COMMITMENT CONDITIONS

1. DEFINITIONS
   (a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
   (b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
   (c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
   (d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
   (e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
   (f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
   (g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
   (h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:
   (a) the Notice;
   (b) the Commitment to Issue Policy;
   (c) the Commitment Conditions;
   (d) Schedule A;
   (e) Schedule B, Part I—Requirements; and
   (f) Schedule B, Part II—Exceptions.

4. **COMPANY'S RIGHT TO AMEND**
   The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY
   (a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
      (i) comply with the Schedule B, Part I—Requirements;
      (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
      (iii) acquire the Title or create the Mortgage covered by this Commitment.
   (b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
   (c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
   (d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
   (e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
   (f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
   (g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT
   (a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
   (b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
   (c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
   (d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
   (e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
   (f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT
   The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY
   The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION
   Arbitration provision intentionally removed.

SCHEDULE A

1. Commitment Date: September 22, 2021 at 7:30 AM

2. Policy to be issued:

   (a) ☒ 2006 ALTA® Standard Owner Policy
   Proposed Insured: Northgate Gonzalez RE, LLC
   Proposed Policy Amount: $ 4,350,000.00

   (b) ☒ 2006 ALTA® Extended Loan Policy
   Proposed Insured: To Be Determined
   Proposed Policy Amount: $ To Be Determined

   (c) ☐ 2006 ALTA® Policy
   Proposed Insured:
   Proposed Policy Amount: $

3. The estate or interest in the Land described or referred to in this Commitment is

   Fee

4. The Title is, at the Commitment Date, vested in:

   Mosa Management Inc., a California corporation

5. The Land is described as follows:

   See Exhibit "A" attached hereto and made a part hereof

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

Commitment No.: NCS-1090922-SA1

SCHEDULE B, PART I

Requirements

All of the following Requirements must be met:

A. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.

B. Pay the agreed amount for the estate or interest to be insured.

C. Pay the premiums, fees, and charges for the Policy to the Company.

D. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.

E. Releases(s) or Reconveyance(s) of Item(s): None

F. Other: None

G. You must give us the following information:
   a. Any off record leases, surveys, etc.
   b. Statement(s) of Identity, all parties.
   c. Other: None

The following additional requirements, as indicated by "X", must be met:

[X] H. Provide information regarding any off-record matters, which may include, but are not limited to: leases, recent works of improvement, or commitment statements in effect under the Environmental Responsibility Acceptance Act, Civil Code Section 850, et seq.

The Company's Owner's Affidavit form (as provided by the company) must be completed and submitted prior to close in order to satisfy this requirement. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

[] I. An ALTA/NSPS survey of recent date, which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys, must be submitted to the Company for review. This Commitment will then be subject to such further exceptions and/or requirements as may be deemed necessary.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

[] J. The following LLC documentation is required from:

(i) a copy of the Articles of Organization
(ii) a copy of the Operating Agreement, if applicable
(iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
(iv) express Company Consent to the current transaction

[] K. The following partnership documentation is required :

(i) a copy of the partnership agreement, including all applicable amendments thereto
(ii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
(iii) express Partnership Consent to the current transaction

[X] L. The following corporation documentation is required:

(i) a copy of the Articles of Incorporation
(ii) a copy of the Bylaws, including all applicable Amendments thereto
(iii) a Certificate of Good Standing and/or other evidence of current Authority to Conduct Business within the State
(iv) express Corporate Resolution consenting to the current transaction

[X] M. Based upon the Company's review of that certain partnership/operating agreement dated Not disclosed for the proposed insured herein, the following requirements must be met:
Any further amendments to said agreement must be submitted to the Company, together with an affidavit from one of the general partners or members stating that it is a true copy, that said partnership or limited liability company is in full force and effect, and that there have been no further amendments to the agreement. This Commitment will then be subject to such further requirements as may be deemed necessary.

[] N. A copy of the complete lease, as referenced in Schedule A, #3 herein, together with any amendments and/or assignments thereto, must be submitted to the Company for review, along with an affidavit executed by the present lessee stating that it is a true copy, that the lease is in full force and effect, and that there have been no further amendments to the lease. This Commitment will then be subject to such further requirements as may be deemed necessary.

[X] O. Approval from the Company's Underwriting Department must be obtained for issuance of the policy contemplated herein and any endorsements requested thereunder. This Commitment will then be subject to such further requirements as may be required to obtain such approval.

[] P. Potential additional requirements, if ALTA Extended coverage is contemplated hereunder, and work on the land has commenced prior to close, some or all of the following requirements, and any other requirements which may be deemed necessary, may need to be met:

[] Q. The Company's "Indemnity Agreement I" must be executed by the appropriate parties.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

[] R. Financial statements from the appropriate parties must be submitted to the Company for review.

[] S. A copy of the construction contract must be submitted to the Company for review.

[] T. An inspection of the Land must be performed by the Company for verification of the phase of construction.

[] U. The Company's "Mechanic's Lien Risk Addendum" form must be completed by a Company employee, based upon information furnished by the appropriate parties involved.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

Commitment No.: NCS-1090922-SA1

SCHEDULE B, PART II

Exceptions

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

1. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.

2. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

3. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

4. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

5. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.

6. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

7. General and special taxes and assessments for the fiscal year 2021-2022, a lien not yet due or payable.

8. Supplemental taxes for the year 2019-2020 assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

First Installment: $ 450.19, DELINQUENT
Penalty: $ 45.01
Second Installment: $ 450.19, DELINQUENT
Penalty: $ 83.07
Tax Rate Area: 004-001
A. P. No.: 117-142-017

(Affects Parcel 3)

9. Supplemental taxes for the year 2019-2020 assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.
First Installment: $ 260.91, DELINQUENT
Penalty: $ 26.09
Second Installment: $ 260.91, DELINQUENT
Penalty: $ 64.15
Tax Rate Area: 004-001
A. P. No.: 117-142-017

(Affects Parcel 2)

10. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

11. A right of way reserved to the South Riverside Land and Water Company, its successors or assigns, for the construction and maintenance of all necessary water pipes, ditches, flumes and conduits, for all purposes of irrigation and domestic use; the exact location thereof not being disclosed by the records.

(Affects Parcels 2 and 3)

12. The effect of an Agreement relating to a party wall on the Northerly line of the land adjoining on the South, executed by T.S. McNair and Helen V. McNair, husband and wife, as owners of the property herein described, and Alfred C. Wilson and Opal M. Wilson, husband and wife, as owners of said adjoining property, recorded January 27, 1954 in Book 1548, Page 565 of Official Records of Riverside County, California. Reference hereby being made to the record for full particulars.

(Affects Parcels 2 and 3)

13. Covenants, conditions, restrictions and easements in the document recorded February 14, 1969 as Instrument No. 14660 of Official Records, which provide that a violation thereof shall not defeat or render invalid the lien of any first mortgage or deed of trust made in good faith and for value, but deleting any covenant, condition or restriction indicating a preference, limitation or discrimination based on race, color, religion, sex, handicap, familial status, national origin, sexual orientation, marital status, ancestry, source of income or disability, to the extent such covenants, conditions or restrictions violate Title 42, Section 3604(c), of the United States Codes or Section 12955 of the California Government Code. Lawful restrictions under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.

Document re-recorded March 5, 1969 as Instrument No. 21740 and June 4, 1973 as Instrument No. 72014, both of Official Records.

Copyright 2006-2016 American Land Title Association. All rights reserved.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

(Affects Washburn Avenue)

14. The fact that the land lies within the boundaries of the Corona Downtown Redevelopment Project Area, as disclosed by the document recorded January 12, 1970 as Instrument No. 2791 of Official Records.

(Affects Parcels 2 and 3)

15. The effect of a map purporting to show the land and other property, filed in Book 61, Page 25 of Record of Surveys.

(Affects Parcels 2 and 3)

16. The rights, if any, of a city, public utility or special district to preserve a public easement in Washburn Avenue (now known as Main Street) as the same was vacated by the document recorded November 10, 1970 as Instrument No. 113229 of Official Records.

(Affects Parcels 2 and 3)

17. An easement for street purposes and incidental purposes, recorded September 28, 1970 as Instrument No. 95429 and December 1, 1970 as Instrument No. 120461, both of Official Records.
In Favor of: City of Corona
Affects: The land

(Affects Parcels 2 and 3)

18. The effect of pole lines and underground utilities as evidenced by a physical inspection of the herein described property.

(Affects Parcels 2 and 3)

19. An easement for utilities and rights of way and incidental purposes, recorded June 30, 1993 as Instrument No. 252481 of Official Records.
In Favor of: City of Corona
Affects: The land

(Affects Parcels 2 and 3)

20. The fact that the land lies within the boundaries of the Downtown Redevelopment Project Area, as disclosed by the document recorded October 17, 2003 as Instrument No. 2003-816707 of Official Records.

21. The fact that the land lies within the boundaries of the Merged Redevelopment Project Area, as disclosed by the document recorded December 31, 2009 as Instrument No. 2009-0673811 of Official Records.

22. The effect of a deed dated July 09, 2019, executed by Moises D. Chambi, as President of Mosa Management Inc., a California corporation, as Grantor, to Israel P. Chambi, M.D., as a married man with right of survivorship, as Grantee, recorded July 19, 2019, as Instrument No. 2019-0270503 of Official Records.

The use of this Form (or any derivative thereof) is restricted to ALTA licensees and ALTA members in good standing as of the date of use. All other uses are prohibited. Reprinted under license from the American Land Title Association.

NOTE: The Company will require an Affidavit of Execution and Delivery of Deed executed by the grantor in the presence of a First American notary or other satisfactory proof that the deed was valid prior to removing this exception or insuring the contemplated transaction.

23. Any defects, liens, encumbrances or other matters which name parties with the same or similar names as Israel P. Chambi, M.D.. The name search necessary to ascertain the existence of such matters has not been completed. In order to complete this preliminary report or commitment, we will require a statement of information.

24. Rights of the public in and to that portion of the Land lying within Fourth Street.

(Affects Parcel 1)

25. We find no outstanding voluntary liens of record affecting subject property. An inquiry should be made concerning the existence of any unrecorded lien or other indebtedness which could give rise to any security interest in the subject property.

26. Water rights, claims or title to water, whether or not shown by the Public Records.

27. Rights of parties in possession.

5. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Structure known as Situs Not Disclosed, Corona, California.

   (Affects Parcel 3)

6. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Residential known as 332 Washburn Avenue, Corona, CA.

   (Affects Parcel 1)

7. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Structure known as 410 South Main Street, Corona, CA.

   (Affects Parcel 2)

8. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

   None

9. This preliminary report/commitment was prepared based upon an application for a policy of title insurance that identified land by street address or assessor's parcel number only. It is the responsibility of the applicant to determine whether the land referred to herein is in fact the land that is to be described in the policy or policies to be issued.

The map attached, if any, may or may not be a survey of the land depicted thereon. First American Title Insurance Company expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of this Commitment or the Policy, if any, to which the map is attached.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1921 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.
